

GERALD B. COHN

2 judgeships still 'up for grabs'

By GARY SCHNEIDER

Madison County Republican Party Chairman Edward Ragdale has flatly predicted a Republican will defeat Democratic nominee Robert Mays in the November general election for judge of the Appellate Court at Mount Vernon.

Meanwhile, competition is heating up for a soon-to-be-filled Third Circuit Court position. Contenders receiving extensive mention include Associate Judge George Moran Jr., a Democrat. "We're going to win the appellate position," Dr. Ragdale stated after the party endorsed Gerald B. Cohn of Bethalto, president of the County Bar Association, for the GOP nomination. Cohn received one Republican write-in

vote for appellate judge and one GOP write-in vote for circuit judge in Madison County. However, certifying Cohn as the party's official candidate may not be "a piece of cake." An Illinois Supreme Court ruling from Alexander County holds that a candidate must either have run on the ballot in the primary or received the most write-in votes in order to appear on the general election ballot.

Attorney Stephanie Robbins, a Democratic precinct committeeman in Edwardsville Township, received two Republican write-in votes for an appellate judge position and has indicated she is considering changing parties and running. Although her two votes may not seem like many, they are twice as

many as Cohn received. She does not plan to make any decision until after the State Board of Elections completes its canvass of the votes and certifies the results. She has said she would not have considered running as a Republican for the judge slot if Mays had not been the Democratic nominee.

Ragdale is quoted as saying Mrs. Robbins may be entitled to be on the ballot, but the party would not endorse her unless she gave a "full-fledged, honest and genuine commitment to the Republican Party." An effort to keep her off the Republican ballot is anticipated—by showing that she is a Democrat—if she decides to run, most observers feel. Since she is a Democratic com-

mitteeman, and since Cohn has been a Republican for many years, the GOP organization is expected to fight hard to put Cohn on the ballot for the seat vacated by the retirement of Appellate Court Judge Edward C. Eberspacher. Ragdale is concentrating his party's efforts on the race for that seat, because he feels Mays, 36, is the weakest Democratic candidate on the ballot. Mays' nomination in the 37-county district at the March primary election came as a surprise to most, including Mays.

Of four Democratic candidates for Eberspacher's post, Mays was the only one who was not endorsed by the Illinois State Bar Association. All the others

3-felony law may affect many local youths

A new law on the books in Illinois should make juveniles who have prior felony convictions wary of committing additional crimes, since they now will be sent to a juvenile correctional facility until they are 21 years old, without parole, if they are convicted of a third felony.

About 35 to 40 juveniles in Granite City alone already have "second offender" status and will be eligible for detention until age 21, if they are convicted of another felony, Don Knight, a Granite City detective and juvenile officer, estimated this morning.

The state's new version of the "three-time loser" law for juveniles has been in effect since Jan. 1, but judges are only now beginning to get the supporting material they need to utilize

this new tool against repeat offenders. Juvenile court judges have been reluctant to impose lengthy sentences on those under 17 years of age, since the Appellate Court has frequently overruled sentences imposed on juveniles.

Under the new law, the sentence is automatic and cannot be appealed. Conviction of a third felony automatically results in the placement of a juvenile offender in a juvenile facility until he reaches the age of 21.

However, the juvenile charged with a third felony is given the right to have a jury trial, if he wishes. All juvenile hearings in the past have been in the form of a bench trial. If convicted in a bench or jury trial, he could appeal the conviction, but not the sentence. If the conviction is upheld by the

appeals courts, the juvenile would have to remain in custody until age 21, according to the new law.

Knight said he was not aware of the new law until today and said he suspects the juveniles in Granite City who are on probation for two burglaries or other felonies, also are unaware of the three-time loser act.

Juveniles who already have three or more felony convictions, the latest being for a crime committed prior to Jan. 1, 1980, will not be affected by the new law, unless they are convicted of another felony in the future, according to the law.

It is not known if the law will be applied to those already sentenced for recent third convictions on crimes which occurred after Jan. 1. Knight said the new law is a

"pleasant surprise" and stated, "It may be a good thing. If the judges have enough brass to put the repeat offenders away," Knight said.

However, he warned, "I suspect this may be a motive for the prosecutor or defense attorneys to deal the case down to a misdemeanor, rather than to put a juvenile away until he is 21."

"But it is a law with some teeth in it, if judges, prosecutors and police will use it," Knight said.

He said he believes juveniles should be warned of the new law, particularly those who have felony records.

Another policeman told the Press-Record, "Every officer on the street has dealt with juveniles who have been caught time after time and have been given probation on top of probation. Now, that they will be sent to a

detention home until they are 21, they might stop and think before they burglarize a house or a store or try another felony. I think it is a good law."

That was the thinking of State Rep. Jack Davis (R-Beecher, Ill.), who introduced the legislation. His bill was passed "without fanfare" last spring by the legislature and was signed into law.

Davis said his "Habitual Juvenile Offender Act" is designed to help combat the increasing crime rate among juveniles.

However, the law did not receive any publicity until recently and judges and other juvenile authorities were not aware of it until today, one juvenile authority said.

Associate Judge Edward C. Ferguson, who currently is assigned to juvenile court for the Third Judicial

Circuit at Edwardsville was not available for comment this morning. Chief Circuit Judge Horace Calvo told the Press-Record this morning he feels the new law will result in more juveniles being sent to the Department of Corrections than in the past.

"We have kind of tried to do this in this circuit anyway, in the past, but it

Steel plight is campaign issue

"The administration has reneged on the promise of Mr. Carter to stop foreign countries from dumping steel on the U. S. market at prices below their manufacturing costs."

This assertion was brought into the Democratic presidential nomination campaign Thursday in Pennsylvania by Senator Edward M. Kennedy of Massachusetts, who is trailing

President Jimmy Carter in the competition for convention delegates. Sen. Kennedy has said that, by campaigning from the White House, Pres. Carter is failing to detect the harshness of daily life encountered by many Americans due to Carter economic policies.

Campaigning for support in primary voting that will take place April 22, Kennedy addressed United Steelworkers in Bethlehem, Pa. He also displayed a newspaper headline quoting administration officials as

Datsun—truckin' toward GC site?

"Datsun—we are driven!"

The commercial refers to the Japanese automobile's popularity, and to the dedication of its manufacturer, the Nissan Motor Co. Will Nissan's zeal for quality and sales drive it to the local community? Will a Datsun truck assembly plant coming trucking on down Interstate 270 to one of two sites adjacent to Ill. Highway Three?

Such questions have been tantalizing Quad-Cityans for months, and the prospect of this occurring continues to attract much interest here and throughout the Midwest.

A Japanese newspaper, the Nihon Keizai Shimbun, said flatly Saturday that Nissan has decided to build a U. S. plant to produce small trucks.

It said Nissan Motor, Japan's second ranking auto-truck maker, will establish a plant with a monthly capacity of 20,000 vehicles in one of three Midwestern states. The plant is to be capable of expansion to produce cars.

The paper said Nissan will send a survey team to the Midwest within a week to complete plans that call for construction of the plant building to begin before the end of 1980.

It added that, if all goes well, a

formal announcement could be made before Japanese Prime Minister Masayoshi Ohira leaves for Washington, D. C., April 30 to participate in talks with President Jimmy Carter.

Illinois Governor James R. Thompson said Saturday that Illinois is one of the three states under consideration for the Datsun truck plant.

Illinois, Ohio and Michigan are in the running, he said he was notified (officially—not by the automotive firm).

"When I was in Japan a couple of weeks ago, Nissan told me they soon will make a final decision on whether to build in the U. S. and that, if they do, they will give Illinois a chance to compete," Thompson said.

Nissan gave on-site preliminary inspections a year ago to numerous potential U. S. plant areas, including an Illinois Power Co. tract southwest of 270-3 and a Union Electric Co. site northeast of the same intersection.

Both contain several hundred acres of land, and sanitary sewer service to that general area is being completed this summer by Madison County.

A third Illinois location inspected

Four town meetings

It's that time of year, again, when citizens can participate and vote in matters affecting their townships. Annual town meetings will be held Tuesday, a date mandated by law.

The agendas for the township meetings include the electing of a moderator, reading of the minutes of last year's annual town meeting, approval of the by-laws for the year and any other business which comes before the citizens, assembled as the township's electors.

Any registered voter who resides in a township needs only to attend the town meeting to be an elector and may vote on any issues which arise at the annual meeting.

Venice township is the only township which plans to ask the electors to approve the township's annual budgets. The highway department budgets will be considered at a public meeting at 1:45 p.m. tomorrow and the township's budgets will be brought up for a vote during the annual town meeting, which will begin at 2 p.m. Both will be held in the Venice City Hall.

Chouteau Township will hold its annual town meeting at 7:30 p.m. tomorrow in the township hall on North Thorngate Drive, behind the Midwest Motel. It is located on the Interstate 270 north access road, just west of Route 3 north (Old Alton Road).

Chouteau Highway Commissioner

Wilfred "Bud" Eberhardt is seeking the electors' permission to sell several old trucks and pieces of equipment, no longer needed by the highway department.

At the Nameoki Township meeting, which will begin at 7 p.m. tomorrow in the town hall, 4250 Highway 162, resolutions will be presented to the electors to transfer funds from the federal revenue sharing fund to the road and bridge fund. The transfers include \$24,000 for environmental cleanup and \$6,500 for health programs.

Nameoki electors also are to consider a resolution for the purchase of a new pickup truck for the humane officer and permission to dispose of the current truck.

The Granite City annual town meeting will be held in the Granite City Township Building, 2060 Delmar Ave., tomorrow. There are no budgets on the agenda.

Area weather outlook

Partly cloudy and mild today. High in the mid-70s. Partly cloudy and cooler tonight with low in mid-50s. Cloudy, windy and cool Tuesday. High about 60. Only minor temperature changes Wednesday through Saturday. Lows 40-43; highs 60-64 during the period.

Study fire

Fire, which was discovered at 2 a.m. today in a vacant building at 1624 Delmar Ave., caused an estimated \$15,000 damage.

Granite City firemen fought the blaze until 5:15 a.m. today. The cause of the fire is under investigation and fire officials declined to comment whether any evidence was found at the scene. The fire is believed to have started in the first floor of the stairwell and spread upward and to the side.

"Four rooms upstairs, the stairwell" (Continued on Page 3)

AND THEY'RE OFF!

More than 65 children participated in the annual Easter egg hunt sponsored by the Venice Park District in Lee Park Saturday. At right, the older children begin their search for the decorated eggs with a countdown running start. At left, young Jason Harrell shows one of the eggs he found to a friend. He is the son of Mr. and Mrs. James Harrell. After the two groups of children had their turns looking for eggs, all those not successful were allowed one more try at the search. Park board members and interested parents assisted with the annual hunt.

Arrest three in disturbance

Three persons were arrested at 11:15 a.m. Saturday after police responded to a disturbance call at 1332 Thirteenth St. Gregory Penrod, 26, of the Thirteenth Street address, was arrested on charges of assault and disorderly conduct. Paula Penrod, 23, of the same address, and Jacob Hogue, 23, of 1621 Delmar Ave., were charged with disorderly conduct. Police said when they responded to the report of a fight, they found Penrod's face bloody. Officers said Hogue refused to get in his car and leave, and he was arrested on the disorderly conduct charge. Penrod allegedly shouted obscenities at the officers and was arrested and the woman refused to leave the squad car and was arrested, authorities reported. Later, Penrod was taken to St. Elizabeth Medical Center for treatment and was returned to the police station. While being booked, Penrod allegedly threatened one of the officers.

THEFT FROM CAR

A cassette player worth \$200 and cassette tapes worth \$40 were stolen from the auto of Gary Granddier, 3732a Nameoki Road, it was reported at 10:20 a.m. Saturday.

Two Injured

Two drivers were injured when their cars collided at Madison Avenue and East 20th Street at 12:50 p.m. Friday. John W. Moran, 32, of 2308 Orville Ave., was treated at St. Elizabeth Medical Center for a bump to the head and was released. Imman Page Ewa, 40, of Pilot Knob, Mo., sustained minor injuries. A traffic report said Ewa was making a left turn and Moran was westbound on 20th Street when the collision occurred.

COINS STOLEN

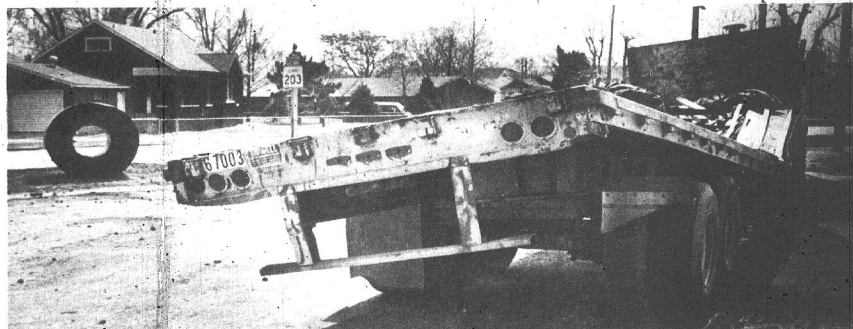

A quantity of quarters and half dollars was stolen in a burglary at the home of James W. Davenport, 2316 Clark Ave., it was reported at 12:30 a.m. Sunday. Entry was gained by breaking a window in a rear door.

2 judgeships
(Continued from Page 1)

received a rating of more than 70 points out of a possible 100 while Mays received 46.12 points in balloting by his fellow attorneys.

If elected, Mays, a former Golden Gloves boxer who has been known to exchange blows on the floor of the East St. Louis Council, would serve a 10-year term and receive \$53,000 a year.

The Republicans also may back a candidate against Judge Moses W. Harrison, a Democrat, who has been filling another vacancy in the Appellate Court since the retirement of Judge George Moran Sr. of Granite City last year.

Those receiving Republican write-in votes for appellate judge, besides Cohn and Mrs. Robbins, included Harold Clark, Ronald Niemann, Paul Waller and Delmar Koebel.

Clark has announced he has accepted a position as an administrative law judge for the Social Security Administration in Peoria and will not consider running.

Waller ran second and Niemann fourth among the Democratic candidates who were opposing Mays. Horace Calvo of Glen Carbon, a former Granite City resident, finished third in that race.

The GOP hopes that the canvass will turn up some qualified GOP candidates who received write-in votes in the primary, since most now on the list are Democrats.

The Appellate Court race is not the only judge race attracting attention in this area. Judge Clark's resignation from his Circuit Court judgeship, effective April 20, will leave a vacancy in

the Third Judicial Circuit (Madison and Bond counties).

It is up to Illinois Supreme Court Chief Justice Joseph H. Goldenherb of St. Clair County to come up with a name for the Supreme Court to appoint.

Judge Goldenherb, a Democrat, has been asked to appoint a Republican, since Clark was the only Republican among the eight circuit judges.

GOP leaders have told Goldenherb they believe there should be one Republican judge in the Democratic-dominated circuit, and he has said he will consider the suggestion.

At least six attorneys have sent letters to Judge Goldenherb seeking the appointment, including Cohn, who ran against Judge William Johnson for a circuit court judge position in 1978.

Johnson, a Democrat, won that race. The Supreme Court will meet in early May and a decision is expected to be made early in the court session on a replacement for Judge Clark.

Cohn also has been endorsed by the Republican Central Committee for circuit judge, appellate judge or both, is yet to be decided.

Harrison is a circuit judge as well as an acting appellate judge, and would resign the former post if elected to the appellate position in November.

Democrats being discussed as possible candidates for circuit judge include:

—Associate Judge George Moran Jr., who is receiving the active support of his father, the retired Appellate Court judge.

—Circuit Judge Charles Chapman of

Granite City, who finished second behind Associate Judge A.A. Matocian in the primary election for circuit judge.

William Haine, who was an unsuccessful candidate for state's attorney in March, but who would give Alton desired representation on the court. The Alton Township Democratic Committee has given its endorsement to Haine.

Associate Judge Philip J. Rarick, who currently has been certified to act as a circuit judge in the felony division.

Madison County Democratic Central Committee Chairman Christ Costoff promised Rarick the next circuit judge opening when Judge Harrison was appointed to the Appellate Court bench. Costoff has since made a public announcement supporting Rarick for Judge Clark's position.

Judge Harrison's position on the Circuit Court cannot be declared vacant until and unless Harrison wins election to the Appellate Court in November or until he resigns from the circuit judge post.

Although no appointment can take place for Judge Harrison's position at this time, the "You're next" strategy may come into play in the appointment of someone to fill Judge Clark's seat, appealing one or more of those who do not get the appointment.

Additional names of possible candidates for Judge Clark's post put up daily. None is willing, at this time, to put his name "into the hat," until some of the current confusion subsides. By then, it may be too late.

U.S. turning against soybean growers — ASA

The American Soybean Association (ASA) has urged congressional leaders to take swift action to alleviate depressed soybean prices accentuated by the U.S. Agriculture Department's selling of embargoed soybeans.

"We have waited three months for President Carter to fulfill his promise that farmers would not bear the full burden of the Soviet embargo," ASA President Allan Aves said in the local metropolitan area last week.

"Instead of fulfilling that pledge, the government has started to sell huge quantities of the embargoed soybeans."

"As a result, soybean prices have dropped nearly 40 cents a bushel in the past week."

"After consulting other ASA grower-leaders, I have decided to ask Congress to undo the considerable damage which the Carter administration has leveled on American soybean growers," have sent telegrams to Senator Herman Talmadge, Congressman Tom Foley and members of the House and Senate agriculture committees urging them to take immediate action to end this burden, which has already cost U.S. soybean growers over \$1.5 billion."

BERKLEY, MRS. ELLEN V. (Holland), 4017 North St. Entered into rest 5:10 a.m. Friday, April 4, 1980, at Eden Village Care Center, Glen Carbon.

Beloved wife of the late Ambrose Berkley; dear mother of Mrs. Elleen Frauenfelder; dear grandmother, great-grandmother, and great-great-grandmother.

A funeral mass was at 10 a.m. today, April 7, at St. Elizabeth Roman Catholic Church, with Father Henry Schmidt officiating. Interment in Calvary Cemetery, Edwardsville Township. Arrangements by RANDALL A. IRWIN CHAPEL FOR FUNERALS, 2801 Madison Ave.

BRANDING, MISS MARY. Madison County Nursing Home, Edwardsville, formerly of Granite City. Entered into rest 2:30 a.m. today, April 7, 1980.

Dear sister of Henry, Fred and Elmer Branding. Funeral services 10 a.m. Wednesday, April 9, at DAVIS FUNERAL HOME Chapel, 21st Street and Cleveland Boulevard, Interment - St. John Cemetery, 2901 Nameoki Road. Visitation after 2 p.m. Tuesday.

COX, CLARENCE W. COX SR., 3514 Utah St., St. Louis, formerly of Granite City. Entered into rest 11:45 a.m. Thursday, April 3, 1980.

Dear father of Arthur G. James E., Robert R. Cox and the late Clarence W. Cox Jr.; dear brother of Mrs. Irene Deum and Abby Cox; dear grandfather and great-grandfather.

Funeral services were held at 1 p.m. Saturday, April 5, at MERCER MORTUARY Chapel, 1416 Niedringhaus Ave. Interment St. John Cemetery, 2901 Nameoki Road.

DIMITROFF, MRS. CATHERINE (Labanicharoff), 2641 State St. Entered into rest 1:15 p.m. Thursday, April 3, 1980, at home.

Beloved wife of the late William Dimitroff Sr.; dear mother of James Dimitroff, William Dimitroff Jr., and Mrs. Dorothy Goodrich; dear sister of Mrs. Maria Karandjef; dear grandmother, mother-in-law and aunt.

Funeral services were held at 1 p.m. Saturday, April 5, at RANDALL A. IRWIN CHAPEL FOR FUNERALS, 2801 Madison Ave., with Father Daniel Gurovich officiating. Interment Sunset Hill Cemetery, Edwardsville Township. Family requests memorials to the building fund of SS. Cyril and Method Eastern Orthodox Church, Granite City.

HILL, IRA E., 4831 Warnock Ave. Entered into rest 3:40 a.m. Sunday, April 6, 1980, at St. Elizabeth Medical Center.

Dear son of Mrs. Helen Hill

If you haven't mailed back your completed census questionnaire, it's not too late to be counted in the 1980 Census of Population and Housing.

The district manager for the census in this area, Ron Randolph says, "We're counting on you to answer the census. Although the Census Bureau wants the questionnaires to be returned on April 1, we'll still accept them."

"If the questionnaires are not returned shortly, census takers must call, and that will add to the cost of the census to taxpayers."

The manager adds that the census is meant to reflect the count of everyone on April 1. Anyone who has moved into

the household since that date should not be listed on the questionnaire. Anyone who has moved away but was a resident on April 1 should be listed.

Most questions can be answered by blacking in the small circles with an ordinary pencil. If the yellow instruction guide that came with the questionnaire is followed, the task is regarded as simple.

Also enclosed with the questionnaire was a brown envelope for mailing it back. It is addressed and requires no postage.

"For help, call 800-682-3125," Randolph concludes.

Zoning for auto plant advancing

The St. Charles County Planning and Zoning Commission has voted unanimously to recommend to the St. Charles County Court that a 97-acre parcel of land required for the proposed General Motors plant in Wentzville be rezoned from agricultural to industrial use.

The parcel is the last remaining tract requiring rezoning for the 400-acre GM site.

At a zoning commission hearing last week, 300 county residents supporting the proposed plant were in attendance to hear Dale L. Rollings, a St. Charles County civic leader, make a presentation in behalf of St. Charles County.

Rollings said that a group of business and government leaders favoring the proposed assembly plant.

"Support for General Motors is widespread and growing in St. Charles County. We have 600 post cards from people saying they favor the plant. There are several hundred supporters here this evening."

"We have 800 signatures on petitions calling for a road improvements bond issue to be submitted to voters on June 3. There can be no question about people in this county supporting General Motors," Rollings told members of the commission.

The zoning commission recommendation is expected to be acted on by St. Charles County within the next few days, according to C. L. Schwendemann, presiding judge.

"The unanimous vote of the commission is another example of the growing support for the GM plant. I was particularly pleased that so many citizens favoring the plant were in attendance at the hearing," Judge Schwendemann said.

WOODS, MISS. THELMA HELEN (Pflanz), 517 E. Chain of Rocks Road, Mitchell. Entered into rest 3 p.m. Thursday, April 3, 1980, at Christian Northeast Hospital, St. Louis.

Beloved wife of Gaylon Woods; dear mother of Mrs. Patricia Atkinson, Mrs. Sharon Owca, dear sister of Mrs. Martin Pflanz; dear grandmother.

Funeral services were held at 10 a.m. today, April 7, at RANDALL A. IRWIN CHAPEL FOR FUNERALS, 2801 Madison Ave., with the Rev. Jeffrey Chesche officiating. Interment Sunset Hill Cemetery, Edwardsville Township.

SGT. WM. HOUGHTON

Recruiter assigned

Staff Sergeant William Houghton has been assigned to the Army recruiting station at 3675 Nameoki Road to serve this area.

The new recruiter performed his duties at the Army's Recruiting and Career Counseling School at Fort Benjamin Harrison, Ind.

Born in Columbus, Ga., Sgt. Houghton joined the Army in 1965. He served as a missile crewman in Illinois, as an infantryman and a military policeman in Vietnam.

At a cook in Kansas and Korea, and as a boy scout and girl scout coordinator in Kansas before becoming an Army recruiter.

Sgt. Houghton lives in St. Louis with his wife, Mary, and their four children. His hobbies include camping and weaponry.

Gas siphoning is alleged

Dennis W. Pacatte, 21, of 4100 Ponton Road, who also listed an address at the YMCA in Granite City, was charged with theft for allegedly siphoning gasoline from a Granite City News Service truck at 1801 Delmar Ave., at 7:25 a.m. Sunday.

An employee of the news delivery service told police he saw someone siphoning gasoline from the truck and gave officers a description of the thief's vehicle.

He then told officers he saw the auto at Cliff's Grill, 1344 Nineteenth St. Officers arrested Pacatte there and the employee alleged he was the one seen stealing the gasoline.

Officers said Pacatte allowed them to open the trunk of his car and they allegedly found a gasoline hose in the trunk.

Births

Births recorded at St. Elizabeth Medical Center include:

GIRLS
Mr. and Mrs. David Bell, 2220 Missouri Ave., April 5, Melissa Kay, nine pounds, six ounces.

BOYS
Mr. and Mrs. Michael Forshee, 1720 Maple St., April 4, Ian Michael, nine pounds, six ounces.

Mr. and Mrs. Gregory Moutria, 64 Briarview Lane, April 4, Joseph Edward, nine pounds, one ounce.

has always been a judicial discretion matter.

"Now, it is mandatory to imprison, rather than send to youth farm or make another kind of settlement. There have been a lot of station adjustments and felonies reduced to misdemeanors, which is why some youths convicted of three felonies still are free."

"I am sure there are felonies where a youngster sees the keys in a car and gets in and drives it a couple of times and then gets in a burglary. He might get probation in the past, however, there have been three serious assaults, or something along that line, it has been past practice to

3-felony law

(Continued from Page 1)

send them to the Department of Corrections," Calvo stated.

The new law removes some of the discretion the judges have in juvenile cases, he added. Although the sentence will be mandatory if convicted of a third felony, the machinery which goes into operation prior to the third conviction may dictate that it would be in the best interest of the juvenile to reduce the charges or make some other adjustment.

"That would depend upon the circumstances and the law enforcement officers. Juvenile court works the same as felony court and the state's attorney may recommend a sentence if he

wishes. The probation office prepares a pre-dispositional statement on what should be done with that juvenile. In adult court, it is called a presentence investigation," Calvo explained.

While that process is going on, the juvenile court judge's "hands will be tied," on third felony convictions and "we will have to send them to the Department of Corrections," Calvo stated.

"They already are overcrowded in the Department of Corrections, but that is a problem they will have to solve. We can only follow the law and it probably will result in more dispositions to the DOC from this circuit, Calvo concluded.

Steel plight

(Continued from Page 1)

saying there is "no suffering" in the steel industry.

"You really have to be sniffing the roses in the Rose Garden to think there is no suffering in the steelmaking industry," the senator commented.

Agreeing with the Steelworkers and with domestic steel firms, Kennedy accused the machinery which goes into live up to its promise to protect American-made steel from unfair foreign competition.

The administration last month halted

enforcement of an anti-dumping "trigger price" mechanism. Federal officials voiced displeasure with U. S. Steel Corp., which filed trade complaints charging seven European countries with dumping steel.

Mr. Carter had urged patience and said he wanted no such suits filed. When U. S. Steel acted anyway, he ordered suspension of the entire trigger price program, which had been devised to help all American steelmakers.

Also campaigning in Pennsylvania

Datsun

(Continued from Page 1)

is near Dixon, 90 miles west of Chicago.

The governor said he has been stressing to the Japanese that this state has ideal transportation links, coal, other natural resources, and a pool of skilled labor.

Nissan voiced concern about employee relations in the event it locates in America, Thompson

added.

The governor said dollar devaluation has caused Japanese auto firms to raise their prices in the U. S. steadily, "just to stay even," a problem that would be remedied by an Illinois plant.

"They are paying a four percent tariff, importing the car, then adding chassis and then bolting them

together here. But the U. S. Tariff Commission is about to raise that to 25 percent per truck, ruling that it is not a bonafide U. S. assembly operation."

Study fire today

(Continued from Page 1)

and two rooms downstairs were gutted by the flames. The owner of the structure had not been determined this morning.

It is not believed there were any occupants.

Quad-City church programs and activities

Calvary Baptist spring revival set

The Rev. Wendell Garrison, a former Granite City minister, will be the guest evangelist at Calvary Baptist Church, 3000 Washington Ave., for the spring revival beginning on Sunday, April 13, and continuing through April 20.

Easter poems circle topic

Mrs. Ina Smith read an Easter poem entitled, "Because He Lives" as part of a program for the monthly meeting of Honor Circle of Niedringhaus United Methodist Church.

She also spoke on "Easter and The Tree" an article which appeared in the Pentecostal Evangel magazine and closed with the recitation of another seasonal poem.

The group met in the church hall for a morning of quilting. A noon dessert luncheon was served by Mrs. Eva Evans followed by the business session with Mrs. Augusta Pender presiding.

She gave a report of the United Methodist Women's executive session.

Rev. Garrison is originally from Mount Vernon, Ill., and has served in the ministry for 25 years. He formerly was pastor of Suburban Baptist Church in Granite City, from 1967 to 1972. Presently he is pastor at Winstanly Baptist Church, Fairview Heights.

The guest speaker has been active in Illinois state church work and is a past president of the Baptist State Association, 1974-1976, and presently serves on the Southern Baptist Church executive committee.

His brother, Howard Garrison, also will be here for the revival to lead the music segment. He has served various churches as music and education minister for 20 years and has been at Chestnut Ridge Baptist Church in Elyria, Ohio, since 1974.

Host pastor, the Rev. Chester Parker, extends an invitation to the public to attend 7:30 services each evening.

Mrs. Delaloye is honored

Members of the Bunko-Ettes Club honored Mrs. Leona Delaloye on her birthday Thursday evening. She was presented with a gift and decorated cake by the group.

Mrs. Florida Batson, 4030 Garden Lane, hosted the semi-monthly meeting in her home.

Those excelling in the games and winning prizes were Mesdames Angie Bucher, Julia Portell, Ruth Partney, Helen Lipchik and the honoree.

Refreshments were served by the hostesses to those mentioned and to Mrs. Rose Drube and Mrs. My Ebling. Mrs. Delaloye invited the members to her home, 2083 Washington Ave., for the next meeting.

ST. JOHN LUTHERAN 1980 confirmation class. The group took part in confirmation ceremonies at the church on Palm Sunday. Front row from left, Christina Marie Chapman, Esther Susan Diak, the Rev. Samuel Boda, pastor, Sharon Ann Henke and Jeffery Dale French. Standing Michael Wayne Geske, William David Henke Jr., Charles Edward Krohne, John Paul Bates, Keith Eugene Snow.

Guild discusses music

Karen Brown, choir director of St. Peter Evangelical United Church of Christ, presented a talk to the afternoon guild concerning the goal of church music.

She noted that the goal is to direct the mood of the congregation toward the service of the day.

Thirty-seven members attended the meeting of the organization last week.

President Virginia McEster thanked Rev. Mary Brueggeman, the retiring interim pastor, for the help she gave to the guild.

A reminder was made concerning the April 19 luncheon and book review being sponsored by the Evening Guild.

The youth group of the

church is having a pancake brunch at the church April 20, it was noted.

Donations were made to the church for Easter and the youth camper fund. A birthday gift was also sent to the Hitz Home.

It was announced that the group has been invited to attend a quilt fair and tea at the Eden Retirement Center April 13 from 1-4 p.m.

All members were urged to attend the Church Women United May Fellowship Luncheon which will be held May 2 at Central Christian Church.

At the May 1 meeting, church member Walmer Brummer will speak on church symbols, it was announced.

The event was sponsored by the seventh grade students.

The youth group of the

Boda, pastor, Sharon Ann Henke and Jeffery Dale French. Standing Michael Wayne Geske, William David Henke Jr., Charles Edward Krohne, John Paul Bates, Keith Eugene Snow.

OFFERTORY PROCESSION. Students of St. Margaret Mary School carrying red roses, the symbol of life, at a pro-life mass and baby shower held at the church to aid mothers who need assistance with a new infant. Front row from left, Jason Brown and Christine Wayslak. Back row, partially hidden, Stacey Harrison and Nick McLaren. The event was sponsored by the seventh grade students.

Trio Unit plans upcoming events

The Trio Unit of Madison County Homemakers met last week at Hope Lutheran Church.

Extension Advisor Gert Bower presented the lesson entitled "Preparing for Unexpected Widowhood." An Achievement Day program will be held April 30 at the Highland Exhibition Building. The topic for the day will be "Happiness is a Homemaker."

Members are asked to meet at the church at 8:45 a.m. Cost of the program is \$4.50.

The Spring District meeting will be held May 14 at the Heritage House in St. Louis. Reservations are due by May 1, it was noted.

Committee reports were given by Vivian Forshee, Bea Rittenhouse, Clara Schilling, Marie Durbin and Ivan Graklanoff. Arminda Lee and June Lux volunteered for the mobile meals program.

Pat Mitchell presented craft projects for the Craft Day to be held May 6. Hostesses for Craft Day will be Ada Matras, Ruth Brave and Clara Schilling.

The serving committee for the meeting were Pat Mitchell, Audrey Nagy and Helen Towns.

Games were played with prizes going to Arminda Lee, Marie Durbin, Genevieve McComis, Helen Pfeiffer, Mary Towns and Vivian Forshee.

New minister at Nameoki Methodist

The Rev. Dr. Eugene M. Seaman has assumed his duties as new pastor of Nameoki United Methodist Church, Primrose Avenue and Pontoon Road.

He was born Feb. 13, 1927, in Champaign County, Ill., and was reared in Rantoul, Ill., where he attended Illinois Prep Schools.

After a tour of duty with the U.S. Navy during World War II, Dr. Seaman returned home and enrolled at the University of Illinois.

He spent 20 years in the insurance business as an agent and manager. Dr. Seaman was active in church as a layman and also worked with the Gideons. He served the organization as Illinois vice-president for a term.

Dr. Seaman also served a two-point charge as a layman at Braville-Smith, Wilmington.

He entered full time ministry in 1970, and completed a degree in theology at Olivette Nazarene College and a degree in divinity at Evangelical Theological Seminary, Naperville.

The new minister has completed all academic work for a doctorate in ministry and is now a doctoral candidate at Drew University in Madison, N.J.

His wife, Mrs. Eunice

REV. E. M. SEAMAN
New pastor

Seaman, has taught school for 18 years and has a degree in music from Olivette Nazarene College, Kansas, Mo., and a master's degree in music from the University of Illinois.

The couple has seven children all grown and living away from home.

The former pastor, the Rev. Dr. Max Martin, is now minister at the First Assembly of God Church in Carbondale, Ill., according to the church announcement.

Reading-writing class set at Calvary Baptist

Classes to teach foreign born residents to read and write English will be conducted at Calvary Baptist Church, 3000 Washington Ave., it is announced by instructors Mrs. Delphine Kinder and Mrs. Emilie Hagopian.

Beginning registration will start at 7 p.m. Tuesday, April 8, in the church fellowship hall, they added.

The course is being offered free to any adult interested in studying the Lauback method. Classes will be

offered in morning, afternoon and evening sessions to accommodate those who register and as the need for specific hours are assessed.

Mrs. Hagopian said the primary purpose of the class is to offer adults a satisfying reading experience from the beginning and to teach people who reside in the area to speak and write English.

For more information and details those interested are advised to contact Mrs. Hagopian at 877-3696 or Mrs. Kinder at 877-5140.

DeMolay mothers to have party

The regular meeting of the DeMolay Mothers was held last week with 18 in attendance.

President Sherrill Clarendon opened the meeting with the pledge of allegiance and the Mother's Prayer.

The group will help with the refreshments at the celebration for Jeff Wofford, who will be installed as Master Councilor on Tuesday.

Preparations were started for a rummage sale to be held in June. It was also noted that the present officers will host a past presidents party which will also be held in June.

The next meeting will be May 6 at 7:30 p.m. All members.

mothers of DeMolays are invited to attend.

Refreshments were served to the following: Lois H. Elwell, Mary Wofford, Dee Barker, Mary Stuart, Doris Payne, Charlotte Mize, Lip Gibbons, Louise Pavier, Sherrill Clarendon, Marie Naeve, Hilda Few, Shirley Schilling, Betty Ebrecht, Ina Myers, Pat Tsigoloff, Hazel Staggs, Ruby Sullivan, Jo Meyer and all DeMolay members.

AIR BOARD MEETING

The proposed annual operating agreement between the Granite City Air Pollution Control Department and the Illinois Environmental Protection Agency will be among the topics at the regular meeting of the city's air board at 7:30 p.m. Tuesday in the city offices at 2301 Adams St.

A review of open burning abatement actions by Luria Brothers Corp. also is on the agenda, as is the department's tentative budget for the 1980-81 fiscal year.

BOY ON BIKE HURT

Lyndon Smith, 15, of 2317 Illinois Ave., was admitted to St. Elizabeth Medical Center for observation after he struck his head during an auto accident last week.

Energy debate, panels planned

A nuclear power debate Friday, April 18, between consumer advocate Ralph Nader and systems nuclear engineer David Bowen will highlight a week of energy information activities at Southern Illinois University at Edwardsville.

Energy Week April 14-18 involves a series of daily workshops, panel discussions, films and open receptions led by SUIE faculty members and guest experts in all phases of energy. The program includes panels on oil and coal futures, synthetics, solar and nuclear power and conservation methods.

The nuclear debate, "What Role Should Nuclear Power Play in America's Energy Future," is the final event April 18. It will begin at 7:30 p.m. in Meridian Ballroom of the University Center. Admission is \$1 for students and senior citizens, and \$2 for others. All programs except that night's debate are free.

Energy Week will begin at the university mall Monday, April 14, at 11 a.m., with a welcoming address by Tom Baldwin, SUIE professor of physics, and a program of music by "Jake's Leg" until 2 p.m.

Three panel discussions on oil supply, control and demand, plus a workshop on mass transit, and a filmed story of the first "direct action" against nuclear power in the U.S. are scheduled throughout the day, beginning at 9 a.m.

Tuesday's (April 16) three panels will concentrate on the environmental and health factors of coal, synfuels and the Carter energy plan; and conservation, "the 50 percent solution." A workshop to help seniors save energy and

RALPH NADER

money will begin at 1:30 p.m. A film scheduled at 8 p.m. is a documentary on the inner workings of a nuclear reactor.

Wednesday, April 16, is "nuclear power day" with discussions of the effects of low level radiation, the economics of nuclear power and what to do with radioactive waste. The 1:15 p.m. workshop will give "101 ways to beat the power company."

Monday through Wednesday, the sessions will be followed by an open reception each day in the Opa! Lounge of the University Center, from 5 to 7 p.m.

On Thursday, April 17, the panel and workshops turn to solar power, with a discussion of America's solar energy future. The three workshops in active and passive applications for buildings and biomass conversion will give visitors some idea of what is being done in the solar energy field to date.

For additional information, interested persons may contact Tim Early or George Livingston, SUIE, National Town Meeting, at 692-3382.

1869 county jail—historic or just old?

By GARY SCHNEIDER

Whether the old Madison County Jail is a historic building or just an old building which should be demolished has been the subject of considerable discussion in the county for the past several months.

Sheriff Emil Toffant expects to move his department into the new county jail a quarter of a mile away about May 1, leaving the decaying jail, which is more than a century old, vacant.

"It's in bad shape," Toffant has told the Press-Record on several occasions. He expressed fears last fall that another severe winter could result in walls collapsing. And he even moved prisoners out of one section where the walls showed noticeable bulges. Fortunately, the winter was not severe.

Preservationists and community leaders from Edwardsville have argued that the structure has been listed recently on the National Register of Historic Sites and that parts could be restored easily.

They hope to save the sheriff's residence, built in 1869, plus the original cellblock, constructed in 1904. A later cellblock likely would be torn down.

The state Department of Conservation is willing to pay up to \$2,000 for an engineering study to determine what needs to be done to preserve the historic parts of the structure.

The National Trust, Chicago, which provides grants for some historical preservation projects, has expressed an interest in the structure, county officials were told during a public meeting on the future of the old jail last week.

Several County Board members have expressed

the opinion that no county money should be spent on the old jail once it is abandoned by the sheriff's department. The board went on record as objecting to the building being listed on the National Register of Historic Sites.

Listing on that register provides tax incentives for restoring the building and discourages demolishing it. When the plan to submit it to the National Register first was brought up, the Madison County Board asked for more time to study options of restoring, demolishing or selling the jail and property.

The Cassens & Sons auto dealership, which is just east of the old jail, has made an unofficial bid of \$75,000 for the jail property, with plans to level the jail and use the property for a parking lot for the auto agency. Cassens already plans to demolish the adjacent Gerber Building for parking space.

County Board Member Don McLean of Edwardsville became the first board member to go on record as being in favor of preserving the old building when he said at last week's public meeting

he could not imagine standing across the street from the old jail and seeing nothing but a parking lot. "I don't want 15,000 square feet of blacktop on Main Street. That should convince people of the real value of it to our town," McLean said at the meeting, which attracted about 75 persons.

All of the statements made at that meeting were in favor of keeping the old building standing, either under the control of the county or transferring ownership to some citizens' group or historic society.

The board's original request for more time to study the options was turned around by those at the meeting, as they requested more time from the county to have a restoration study done.

County Director of Administration Mary Kane said no hasty decision can be made, because of some complex problems.

One is that a boiler house behind the jail heats the courthouse through steam pipes under the old jail. Some kind of easement

would have to be retained by the county for maintenance of those pipes, if the property is sold.

Roger Kepner, a contractor specializing in historic restoration projects, said at the meeting that he feels the building is structurally sound and will not need a great deal of work. The fact that it still is in use by the sheriff's department

shows that all the essential elements, electrical, plumbing, heating, etc., are in working order, he said. Groups which have gone on record as opposing razing of the old structure include the Concerned Citizens of Edwardsville, the League of Women Voters, the Southwestern Committee on Illinois Landmarks, the Edwardsville Plan Com-

mission and the Edwardsville Historic Preservation Commission.

JoAnn Nabe of the League of Women Voters summarized their feelings, saying "No damage could be more irreversible or irrevocable than destroying this structure."

What Is A Trust?

This series of short articles is presented by the Trust Department, First Granite City National Bank, to better inform you about this important subject, and to dispel the mystique and wide-spread misunderstanding that surrounds it. Subsequent brief articles over the next few weeks will provide more details and insight into various types of trusts. Watch for them.

John Tallgren
Trust Officer

Gifts to Minors—In Trust

In making gifts to minors, the donor should consider not only the size of his gift but also his reasons for making it, the investment nature of the gift asset, and the minor beneficiary's personal circumstances. These considerations may indicate that a gift in trust is appropriate.

Gifts in Trust. In the past, conventional trusts for the benefit of minor beneficiaries created a gift tax problem. Because of the legal disabilities of minors it was generally held that they could not be given a present interest in a trust, and for this reason grantors were not permitted to use any part of their annual gift tax exclusions when making this type of gift.

Subsequently, Congress acted to remedy this situation. The law (Sec. 2503 (c) of the Internal Revenue Code) now provides that the donor will be entitled to his annual gift tax exclusion if these two conditions are met: (1) if the property and its income may be used for the minor's benefit; and (2) if any balance not so used will either pass to him when he attains age 21 or to his estate, if he dies prior to such age. This latter condition will also be satisfied if the minor is given the right to specify by will who will take the trust property in the event of his death.

Advantages over Custodial Acts. Through a Sec. 2503 (c) trust, the

donor can insure that the purposes for which his gift is made will be fulfilled and that the trust will be properly administered. This type of trust permits a greater variety of property to be used than is permitted under statutory gift arrangements and, in addition the trustee can be given more complete investment powers. A wider choice of successor trustees is also available, and their appointment can be made without the need for expensive court proceedings.

In addition, the minor beneficiary's will can name the person who is to take the trust property if he or she dies before 21, thereby minimizing his or her own probate estate as well as reducing the possibility of such property becoming a part of a parent's estate.

Disadvantages of Sec. 2503 (c) Trust. As under the Custodial or Statutory Gift to Minors arrangements, income from a Sec. 2503 (c) trust used to satisfy another person's legal obligation to the minor beneficiary will be taxed to the person having such obligation. The mandatory requirement for distribution for the trust when the beneficiary attains 21 may be undesirable if the gift is of considerable size or it is felt that because of the beneficiary's personal circumstances he may not be able to manage the property at that time.

What is a trust? We hope we've stripped some of the mystery from this not-so-simple question. If you should have additional questions, talk to your attorney and both of you are invited to visit us. We'll be glad to help.

And please remember: These short articles are offered only as a non-technical guideline to the question of trusts. They are not intended to be used as legal advice. That is the job of your own attorney.

7 candidates for 4 Venice school board positions

Transfer of funds on ballot

Voters in the April 12 school board election in Venice will have a referendum to vote on in addition to electing three out of five candidates for three-year terms and one of two candidates for a remaining year in an unexpired term. The proposition, which calls for a "Yes" or "No" vote, reads:

"Shall the Board of Education of Community Unit School District No. 3, Madison County, Illinois, abolish its Special Education Building Fund, approximately \$134,000.00, and transfer said funds to the Building Fund?"

Voters will also vote for three persons for the Belleville Area College Board of Trustees.

Four candidates have filed for two three-year BAC terms and four for one one-year term.

Both polling places for the school election, the Venice High School gymnasium for persons living in Precinct One and the Eagle Park Acres Improvement Association building for residents of Precinct Two, will be open from 12 noon to 7 p.m. Saturday.

AUTHORIZE BID CALL
City Council members have authorized a call for bids for a house that has been remodeled under direction of the City Council's Rehabilitation Committee at 2208 Benton Ave. The bid call was approved on a motion by Paul Fisk, chairman of the Rehabilitation Committee, who told the aldermen the remodeling work has been completed and has passed inspections.

JEWELRY JOTTINGS

By RUSS WALKER

In all of history, the Eskimos are the only people who have never worn rings, and for a good reason. In extreme cold, even a slight pressure might impede circulation and lead to frozen fingers.

Even Eskimos would be delighted by the beauty of our rings. We have rings of all kinds that make ideal gifts.

JACK TOLLIVER

WILBERT GLASPER

EARL HOGAN

JOHN MANGIARACINO

GREGORY KATANA

GEORGE WADE

BERNARD HOGAN

Residents of Venice School District Three will vote on Saturday, April 12, to fill three three-year board terms and the remaining year of an unexpired term. Three incumbents, Jack R. Tolliver, Wilbert Glasper and Earl Hogan, all presently serving three-year terms, are vying for re-election with two persons opposing them. They are John Mangiaracino and Gregory Katana.

George Wade, appointed to the board to fill a vacancy created by a resignation, is opposed by Bernard Hogan for the one remaining year of that term. Information on the seven candidates follows:

JACK R. TOLLIVER
Jack R. Tolliver, a 13-year member of the Venice Board of Education, is a candidate for a three-year term. He is currently president of the board and has held that office for four previous one-year terms.

Tolliver, 54, of 1250 Klein St., is employed as a civil engineer by the U.S. Department of Housing and Urban Development.

He and his wife Evelyn have five sons and one daughter.

A graduate of Venice High School, he has served as coach of St. Mark's basketball team and has been committee chairman of Boy Scout Troop One.

He has been active in programs of the Quad-City special education region and has taken a leading role in efforts to balance the Venice district's income and expenditure needs.

A native of East St. Louis, Tolliver initially served on the Venice board by appointment for a year and was

elected to three-year terms in the last four elections.

WILBERT GLASPER
Wilbert Glasper, presently secretary of the Venice Board of Education, is seeking a second three-year term. He and his wife Gussie live at 517 Fillmore Ave. and their daughter Tisha, 8, and son Wilbert Jr., 3.

Glasper works as a construction electrician and holds membership in International Brotherhood of Electrical Workers Local 309 in Collinsville.

He is a 1968 graduate of Madison High School and attended Southern Illinois University at Edwardsville for three years before being accepted for an electrician apprenticeship which he completed in 1978.

Glasper comments, "My reasons for seeking office are simple. While on the board of education, I have tried to do all that I could to be an effective member."

"Effective means not only attending local board meetings, but as many meetings and panel sessions as are offered by the Illinois School Board Association."

"One does not become a member by just being elected; there is a certain individual commitment that has to be made. In the last three years, I have tried to become a knowledgeable and productive member."

He concludes by saying he has "a desire to serve the children and the community and a strong belief in the values of the public schools."

He is presently a member of the Venice High School Vocational Advisory Committee.

EARL HOGAN
Earl Hogan, 33, of 221 Kerr St., is an incumbent candidate running for one of three three-year terms on the Venice Board of Education in the election on April 12.

He ran successfully in 1977 for a position on the board and seeks re-election.

Hogan made an unsuccessful attempt in the Venice city election last year to become an alderman of Ward One.

He was born in Granite City and moved in 1955 to

Venice, where he has lived with his parents ever since. Formerly a 10-year employee of the street department of the City of Venice, he is presently employed at American Car and Foundry Co. in St. Louis.

Hogan comments, "Venice is my home and I intend to stay here along with other good citizens. I feel that to be a school board member in District Three, you must care for and have love for Venice, your school and the children."

"There are a lot of citizens who live in Venice and are in our school district that live on a fixed income. Therefore, I will do all I can so that there will be no tax increase while I am in office."

Hogan also states that "there are a lot of things the Venice schools need and a lot of things that the citizens of Venice need in order to keep their school their own."

"To have a good community to live in, we must have a better school for our children."

JOHN MANGIARACINO
John Mangiaracino, 1004 Third St., is one of five candidates seeking one of three three-year positions on the Venice School Board.

The former Venice alderman is a lifetime resident of the city and is a member of St. Mark Catholic Church. He is an active member of the Venice Crippled Children Organization and the Venice Social Club.

Mangiaracino waged an unsuccessful campaign in 1979 for an aldermanic seat. He was twice elected precinct committeeman and has served as the city health inspector.

He and his late wife, Lucille, had one daughter, Mrs. Shirley Voegelé, who now resides in Granite City.

GREGORY KATANA
Gregory W. Katana, 603 Fillmore Ave., is one of five candidates seeking three three-year terms on the Venice Board of Education.

Katana, a resident of Venice since 1975, is married to the former Arlene Nash, a lifelong resident of the city and a former student of the Venice school system. They have one son, Michael, 4.

He graduated from Edison High School, Edison, New Jersey. He is presently at-

tending Southern Illinois University at Edwardsville, majoring in government, in his senior year.

Katana is employed at Meyer's Horseradish Co. in St. Louis. He is a member of Trinity Tabernacle in Madison.

"Presently the Republican committeeman in Venice Precinct Two, Katana states, 'Government is my interest and I feel I want to contribute to Venice. I feel I have something to offer—experience in the courses I have taken.'"

"I feel that to improve the schools it has to be a community effort. It is important

to increase the tax base to increase revenue."

Katana also sees a "need to establish a closer relationship with the City Council in planning."

GEORGE WADE
George W. Wade Jr., 431 Lincoln Ave., an incumbent candidate, is trying for the remaining one year of an unexpired term on the Venice Board of Education. He now fills that position by appointment.

Wade was appointed to the board in October 1979, filling the vacancy created by the resignation of Gerald Cico in September.

He had been on the board previously for two years, but

was defeated in a close race in the April 1979 election.

Graduating from Lincoln High School in East St. Louis, the Pulaski, Ill., native has resided in the Quad-Cities for 11 years.

He and his wife Margaret, have a daughter, Wanda, and a son, Kenneth.

A Navy veteran, having completed his service in August 1967, Wade has been employed for the past seven years by the Security Division of Granite City Steel.

BERNARD HOGAN
Bernard "Barney" Hogan, 31, is the only other can-

didate seeking the one remaining year of an unexpired term in the April 12 balloting. He opposes incumbent George Wade, who fills the position by appointment.

He is presently residing at home with his parents at 221 Kerr St.

Hogan ran in the 1979 election for the Venice Board of Education but was defeated.

Bernard Hogan's older brother, Earl, is presently on the school board and is running for reelection to a three-year term.

Bernard Hogan attended Venice schools through the early part of the ninth grade.

Stash the Trash day

The second annual Quad-City area clean-up campaign, Stash the Trash Day, will be held Saturday, April 12, from 9:30 a.m. to 12 noon.

Approximately 1,200 Boy Scouts and Girl Scouts from the local communities will participate.

Headquarters for the campaign will be First Granite City Savings and Loan, 1529 Johnson Road.

The clean-up effort will be directed at downtown areas of Granite City, Madison and Venice, along with various shopping centers throughout the area and highways leading to and from the cities.

Ned Freeman of the Boy Scouts, Myra Parrish of the Girl Scouts and Paul Mihalich from the Tri-Cities Area Chamber of Commerce are organizing the event.

Sponsoring the clean-up campaign are the Chamber of Commerce, McDonald's Corp., Pepsi-Cola Co. and the Boy Scouts and Girl Scouts.

Also participating will be the Free Spirits REACT CB group. They will be on hand for communication in case of an emergency. Local Explorer groups will assist at the several soda stations that will be set up throughout the clean-up area.

McDonald's and Pepsi-Cola will furnish refreshments for the participants. Each scout will receive a

patch for his or her contribution.

Trucks for hauling the trash will be furnished by the city and the state. McDonald's will provide trash bags.

"The children will be supervised by troop leaders and their assistants."

"We would like to see a clean-up campaign year after year," said Freeman. Last year, the participants picked up 32 tons of trash, over 4,000 bags. Freeman said he is expecting the same results, if not better, this year.

Curbs on smoking and stress taught in area

"It's not easy to be a smoker. From the minor inconvenience of being required to sit in a certain section of a restaurant to the health hazards of smoking, smokers are faced with difficulties."

But if smoking has its problems, quitting is even harder, according to the National Center for Health Statistics in 1979, nearly 17 million Americans tried to quit smoking but only one in five succeeded.

"Since people smoke for a variety of reasons, there is no one specific method for quitting," says Diane Russ, director of the Smoking Cessation program offered by the Stress Center at the St. Louis University Medical Center.

The cessation program employs behavioral modification techniques to help people better manage the stress in their lives as well as to quit smoking.

"Every person in the program is diagnosed individually. Methods for quitting are designed to fit a

person's needs and habits," adds Diane Russ.

"The program provides for group support but it can't make anyone stop smoking. That is up to each individual."

The program, which is open to the local public, includes 13 one-hour sessions for nine weeks and a three month follow-up. It is supervised by Kathryn D. Cramer, Ph.D., director of the Stress Center (314-771-7601).

HURT ON MOTORCYCLE

Richard Bunch, 20, of 1855 Spring St., was injured in a motorcycle accident on the Arlington Heights Golf Course parking lot about 3:50 p.m. Thursday and he was taken by a Granite City ambulance to St. Elizabeth Medical Center. Possible internal head injuries, head and facial cuts and an injured shoulder were diagnosed and he was transferred at 6 p.m. to Firmin Desloge Hospital, St. Louis.

\$100,000 insurance on deposits

President Carter last week signed into law an omnibus financial statute, the Depository Institutions Basic Limit to \$100,000 from \$40,000 in each insured bank.

Chairman Irvine H. Sprague of the Federal Deposit Insurance Corp. said the new \$100,000 insurance limit will apply to deposits in 14,364 insured national and state-chartered commercial banks and 324 insured mutual savings banks. About 97 percent of all U.S. banks are FDIC-insured.

In-state time and savings deposits of public entities, such as state, counties and cities, and time and savings deposits in Keogh Plan retirement accounts and Individual Retirement Accounts will continue to be insured separately to \$100,000 under previously existing laws.

Sprague said the new insurance coverage should bolster public confidence in the nation's banking system. "We have a strong and adequate fund currently at \$10 billion," he said.

When federal deposit insurance first became effective on Jan. 1, 1934, coverage was limited by law to \$2,500 per depositor.

Coverage was raised to \$5,000 on July 1 of that year and to \$10,000 by the Federal Deposit Insurance Act of 1950. Subsequent laws increased coverage to \$10,000 in 1956, to \$20,000 in 1959, and to \$40,000 in 1974.

MAN FINED \$2,360.
Andrew A. McGovern, 20, of the 400 block of Gaslight Walk, Pontoon Beach, has been sentenced to serve 18 months of probation and to pay fines totaling \$2,360 after he pleaded guilty to two counts of delivery of cannabis. He was among eight persons arrested in a series of drug arrests Dec. 26, 1979, which followed a five-month undercover drug investigation by agents of the Metropolitan Enforcement Group of a Southwest Illinois Circuit Judge Victor J. Mosele pronounced sentence.

GRANITE CITY (ILL.) PRESS-RECORD, Monday, April 7, 1980—7

Cripps, North destroy Roxana

By TOM SCHOCKER
For the Press-Record

GRANITE CITY — All they wanted to do was win the ball game. Not a tough task for a state qualifying team. The way the baseball season was going for the Granite City North Steelers, though, narrow margins were all they could manage. But they broke out of their one and two runs games to give Coach Bob Stegemeier a long overdue surprise.

Behind the strong hurling efforts of Kevin Cripps and a potent 12 hit attack, Granite North upped its season mark to 3-2 as it shell-shocked the Shells of Roxana 9-0 on North's home turf Friday.

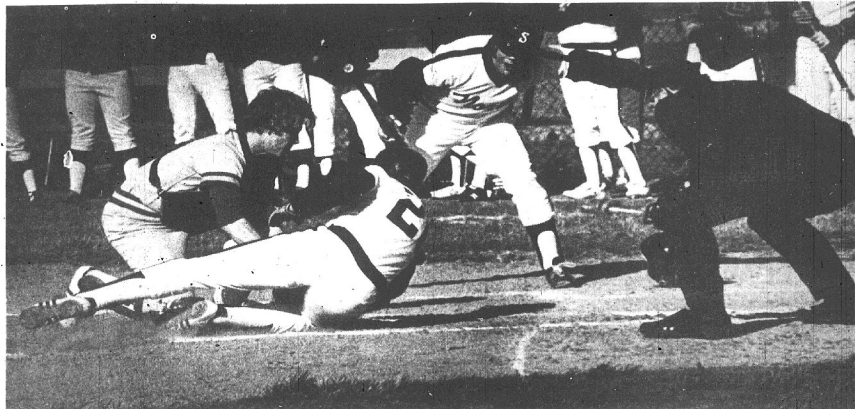

"I like those, they're really fun," said Stegemeier following his squad's biggest offensive output of the season. "Everyone of our games this season has been close, until today." More than its belated scoring punch, the Steelers also recorded their initial shutout of the year. Mainly because Roxana failed to get the ball out of the infield.

And who gets credit for that? Kevin Cripps. "Just a super effort out of Cripps," said Stegemeier. "He has had two good outings now. Today he just threw strikes." From the opening batter, Cripps, in a seemingly effortless manner, played cat and mouse with the Roxana batters.

Mixing up his delivery, the righthander used a tough fast ball along with a tricky curve to give the Steeler infield all the practice it needed.

Plagued for the second straight game by a gusty left to right field wind, Cripps provided the outfielders with a rest as he allowed but three playable balls to enter the confines of the open sky while giving the Shells all the air they could handle. Before Roxana found the secret to Cripps' pitching magic with a solid single in the fourth, the crafty Steeler hurler had pulled the string with five strikeouts in the first three frames.

Giving up a lone base hit in

TWO UMP'S? Granite City North's Bob Batey (back) gives the 'safe' sign before the umpire has a chance to Friday, as

teammate Dennis Page slides home during the Steelers 9-0 victory over Roxana.

(Press-Record Photo by Ed Sedy)

the fifth, which was another sound shot, Cripps chalked up two more strikeouts. A relatively flawless performance, but nobody's perfect. Coasting was too easy and Cripps found himself in somewhat of a jam in the sixth. A one out

walk and hit number three for Roxana saw Cripps' shutout in jeopardy. However, a determined effort shot down the Shells bid for a run as Cripps put away the final two outs on strikes.

"You can't ask any more

than that," said Stegemeier on Cripps' performance. Although Rich Takmagian threw the final frame Cripps concluded a masterly pitched contest with nine strikeouts, giving up only one walk and three base hits. "There was nothing

physically wrong with Kevin," explained Stegemeier as to why Cripps didn't finish the game. "I just wanted to look at Takmagian. He hasn't gotten a chance to pitch yet."

While matters were being taken care of on the mound,

the early season problem at the plate, was convincingly corrected.

An opening double by Don Patterson was followed by a rocket liner base hit from Dennis Page, but a perfect throw from centerfielder cut

(Continued on Page 9)

Speedway opening soon

GRANITE CITY — According to Tri-City Speedway promoter Gil Rimmel many special events will highlight the upcoming 1980 racing season.

New quartz lights have been installed in preparation for its 19th annual opening program which will be the "World of Outlaws" sprint cars on Friday April 11 and Saturday April 12.

A total of 33 racing dates are planned the usual late model and sportsman stock car racing every Saturday night on the half-mile clay oval.

The "National Dirt Racing Association" (NDRA) an organization which travels throughout the southern part of the United States, will invade the local speedway on Friday June 20 and Saturday June 21 for a first place prize of \$10,000 to the winner of the late model feature.

Another special event, the "Illinois Sprint Car Nationals," is slated for Friday Aug. 22 and Saturday Aug. 23. Last year's winner, Larry "Buckwheel" Gates of Evansville, Ind., will be trying for his second win.

Expected to compete in this year's late model division 1979 track champion Dick Taylor of Springfield, Ill., Joe Ross of Mechanicsburg, Ill., C. C. Corbin of E. Alton, Ill., and Bill Myers of E. Alton have new cars and will compete on opening night, Thursday April 19. The sportsman car 1979 track champion Rob Jones of Creve Coeur, Mo.

Cougars rip Millikin twice

EDWARDSVILLE — The Southern Illinois University at Edwardsville Cougars got things back on the winning track here Sunday, sweeping a doubleheader with Millikin University of Decatur. SIUE won the first game 10-3 and took the nightcap 14-6.

The Cougars actually trailed in both games — 1-0 going after the first inning. But that was all the brief hope they would allow Millikin.

In the first game, SIUE broke loose for a five-run second inning and never again trailed. Millikin scored two runs in the third making it a close 5-3 game. But back came the Cougars. They scored four runs in the bottom of the third, making it 9-3. SIUE scored a lone run in the fourth to make it 10-3.

See photo, page 9

Tom Ritzheimer got the win in the first game for SIUE. He went all the way, scattering three hits. SIUE's Gary Hadjuk, a senior from Niles West High, smacked two home runs in game one — two of the four the Cougars pounded out of the park. The other two were hit by Roger Thomas and Ed Kopf.

IN THE SECOND GAME, Cougar freshman Tom Greco, a starting third baseman from Granite City North, went two-for-four at the plate, including a double. Greco also scored a run and had a stolen base.

In the second inning, SIUE scored three runs to take the lead. Thomas walked leading. Catcher Mike Stewart got an infield hit. Then Jay Kruckman doubled to rightfield, scoring Thomas.

Then Greco stroled to the plate. He stroked a single to

centerfield, scoring Stewart and Kruckman. Greco stole second, but was left there when the next three batters were out.

SIUE scored two runs in the third, one in the fourth and five in an explosive fifth inning. In the fifth, Thomas and Stewart hit back-to-back home runs. Thomas hit his leading off the inning.

In the sixth, SIUE scored three more. Steve and went to second on an error by Millikin left fielder Mike Overlot. Kruckman singled, scoring Stewart. Greco then smacked a double to centerfield, sending Kruckman to third. Juckman scored on a wild pitch, sending Greco to third. George Vogel hit a sacrifice fly to centerfield, scoring Greco.

Doug Gremaud (2-1) got the win for SIUE. Freshman Kent Taylor relieved in the seventh.

The two victories, com-

bined with a doubleheader sweep of Kentucky Wesleyan in Owensboro Saturday, give the Cougars a 9-12 record.

Flyers win, but others surprise at Mineral

By PETE HAYES
Sports Editor
of the Press-Record

BELLEVILLE — As expected, it was "East St. Louis" against the rest of the "Bays" here Thursday at the beginning of the 45th annual Mineral Area Track Meet, held at Belleville East High and hosted by BTHS West. But there were a few pleasant surprises by other area schools, including Granite City South.

Powerful East St. Louis Senior ran away with the team title, racking up an impressive 96 point performance. East St. Louis Lincoln, which many area coaches felt had a chance for the championship, finished a distant second with 52½ points. Mount Vernon ran third with 21½. Freeburg, a Class A (small school) entry, finished third with 21. West was fifth with 19½.

Granite City South finished sixth with 16½ points, edging highly-regarded Springfield Southeast, which had 16. Granite City North finished 15th with 1½ points.

The rest of the field included Belleville East in eighth with 13½ points, Harrisburg ninth with 12, Alton 10, Lebanon 3, Collinsville, Edwardsville and O'Fallon 2 each. Madison, Red Bud, St. Paul, Highland and Waterloo failed to score.

ONE OF the most hotly-contested events of the meet was one of the first to start and was one of the last to finish. The pole vault. Granite South's Steve Adams gave all-star John Goliday all he wanted for a time, before finally giving in to the powerful Flyer. Goliday finally won the meet with a jump of 13 feet, six inches. Adams finished second with a height of 13 feet. The two battled it out for the top spot in the event long after the rest of the field had bowed out. Hodges of Mount Vernon finished third at 12-6. Lincoln's Wilson at Mount Vernon's Heater tied for third at 12-0.

South also got a second place finish in the shot put from Mike Konzen. His toss distanced 15.73 meters, compared to the winning throw of 16.21 by Wilson of Lincoln. Shafer of Mount Vernon was third at 15.6. Warren of Harrisburg fourth at 15.43 and Hall of East St. Louis fifth at 15.28.

KONZEN ALSO picked up a third place finish in the discus throw with his toss of 45.36 meters. Hall of East St. Louis was the winner at 45.32. Goliday was second

for the Flyers with a 45.92. Another exciting finish came in the finals of the 1600 meter run. South Dave Houston out-kicked Mount Vernon superstar Nick Whiteside to grab third place with his time of 4:34.0. Whiteside's time was 4:36.0. Greg Hill of Freeburg was the surprise winner with his time of 4:32.0. He took the lead for the first time on the final lap. Johnson of East St. Louis was second in 4:33.3. Chappell of Alton was fifth in 4:37.0.

Even though it failed to place, South's two-mile (3200 meter) relay team caught the eye of Warrior head coach Mel Bunting. "I'm real proud of the two-milers," he said. "They may not have placed, but they had their best time of the season and in a pretty tough field at that."

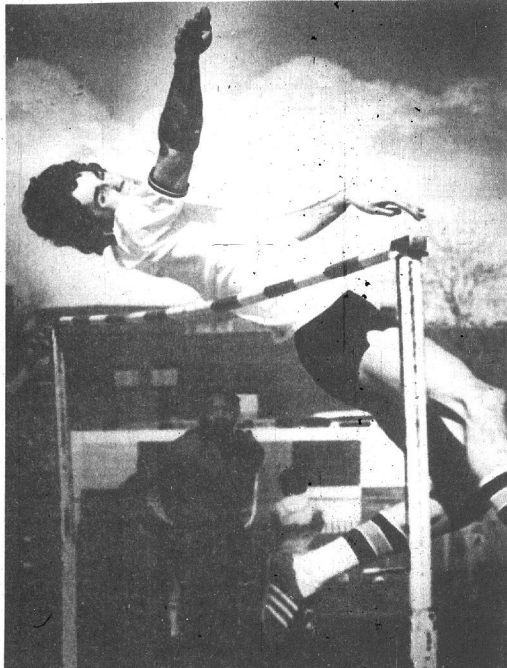

Bunting was pleased with the work of his field event athletes. "They've gotten us the majority of our points today," he said. "Steve Adams has worked so hard, but they all have. I'm encouraged."

On the other end of the spectrum was North head coach Harry Lang. "I've said that the open meets like this would give us trouble," he said. "We finish just out of the top places in a lot of the events. Not by much, but just enough. We have the depth, but not the two or three outstanding individuals lots of teams have, who'll get you those firsts, seconds or thirds consistently."

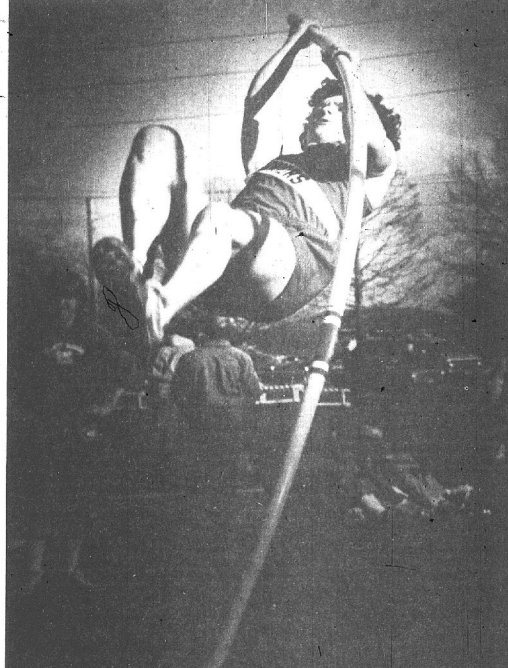

ONE STEELER who did well was high jumper Mike York. The tall, slender senior finished in a tie for fourth in his hotly-contested event. York's leap of 6-2 was matched by Bruce Gibson of Belleville West. All-

everything Vincent Allen of East St. Louis easily won the high jump with a ho-hum leap (for him) of 6-4. Decker of Mount Vernon matched that height, but required more attempts and finished second. Glen of East St. Louis was third with a 6-2 (he took fewer attempts than York or Gibson). York's points were the only ones the Steelers earned.

South also got points from Drew Giesler who finished fifth in the 800 meter run in a time of 2:02.2. Thomas of Springfield Southeast was the winner in 1:59.5. Malloy of Lincoln was second at 2:00.3. Cook of Belleville West was third with a 2:00.4 and Johnson of East St. Louis was fourth in 2:01.8.

UP THEY GO. Granite City South's Steve Adams (right) and North's Mike York both place at the Mineral Area Meet Thursday in Belleville. Adams finished a strong second in the pole vault, while York

tied for fourth in the high jump. The two will be facing each other Tuesday when South's track team travels to North.

(Press-Record Photos by Pete Hayes)

Tigers out-slug North in GEC game

GRANITE CITY — The Edwardsville Tigers ran their record to 4-0, 1-0 in the Gateway East Conference, here Thursday with a critical 8-6 slugfest victory over Granite City North. It was also the Gateway East Conference opener for North's Steelers.

North, which defeated Edwardsville in the post-season playoffs on the way to a trip to Peoria and the Class

AA (large school) "Elite Eight," scored three runs in the bottom of the second inning to take a 3-2 lead at that point, having spotted Edwardsville's Tigers a 2-0 lead in the first inning.

But back came Edwardsville. The Tigers scored twice in the third inning and two more times in the fourth, claiming a 6-3 lead. But North came back with three runs in the bottom of the fourth to tie the score.

Then came the sixth and seventh innings. Edwardsville scored once in each of the frames for enough to claim the victory.

Steve Doty was the losing pitcher for North. Tom Hanson got the win for

Edwardsville. North's record fell to 2-2 and 0-1 in GEC play.

North coach Bob Slegemeier blamed much of the outcome on the weather, which was cold and windy. "We didn't get too much pitching," he said. "But on a day like this, it's hard to get the arm loosened up."

Edwardsville coach Bill Funkhouser said, "North's got a real fine team. You might be able to hit against them, but you'd better not let up, because they're not going to give up."

The next action for North, following Friday's non-conference win over Roxana (see related story), will be Wednesday at Wood River.

Former GC youth is lifting champion

PEORIA — Eric Brokaw, 15, of Roxana, formerly of Granite City, won the 123-Pound Division at the Spaulding State Powerlifting Tournament Sunday in Peoria.

Brokaw, a sophomore at Roxana High School, broke

three state records at the meet. His squat weight was 310 pounds, a record. He bench-pressed 160 pounds.

Eric is the son of Marvin and Judy Brokaw of Roxana and the grandson of Ervin and Lela Brokaw of Granite City.

SIU-E second... again

By NANCY WEIL
For the Press-Record
EDWARDSVILLE

The women's softball team from Southern Illinois University at Edwardsville finished second place in their second consecutive weekend of home tournament play. The Cougars were 4-1 in the Cougar Field on Bluff Road.

SIUE's only defeat was Friday afternoon to the College of St. Francis. The Cougars lost, 5-4, after St. Francis brought in three runs in the seventh to overtake the home team. St. Francis went on to win the tourney also with a 4-1 record.

Becki Saylor started SIUE's first game on the mound. The Cougars defeated the University of Illinois-Chicago Circle in that opening contest, 5-1. Cheryl Schofield, of Granite City, had two big hits for SIUE against U. of I.-CC. Schofield doubled in the third and hit a triple to rightfield in the fifth.

Later that afternoon, SIUE lost the St. Francis game. The Cougars were winning, 4-2, going into the seventh when hurler Tammy Rainwater had trouble on the mound. She walked the first two batters and the third took first when she was hit by a pitch. All St. Francis needed was Karen Hartman's fielder's choice double. Although Hartman was thrown out at second, her hit gave St. Francis two runs. The visitors brought in one more to break the tie and take the game.

Saturday morning against DePaul

PATTY SUESSEN (26) of SIUE-E goes to second against UI-CC during Cougar Classic.

(SIUE Photo)

University. SIUE had four runs on four hits for the 4-2 victory.

SIUE was virtually unstoppable at bat against Chicago State University, Saturday afternoon. The Cougars won, 14-2, in five innings. Six runs were totaled in SIUE's half of the first inning. A triple by catcher Amy Frey brought in Patty Suessen who singled to get one, Tammy Rainwater and Cathy Blendo, who were both walked, also scored on Frey's hit.

The home team scored four more in the second and two each in the fourth and fifth.

Suessen had one more single in the game. Her second hit came in the second inning. Also in the second, Denise Schaeke and Cindy Rakers hit back to back doubles for the Cougars.

The Cougar Invitational marked the first series of games the Cougars played against entirely Division II competition. All six of the teams that participated in last weekend's tourney will compete in the Division II State Tournament, May 1-3 in Charleston, Ill.

The Cougars record is now 11-6.

Park opening

GRANITE CITY — There are two openings in the Granite City Park District's Men's BA League. The league plays on Thursday nights at Worthen Park. The entry fee for Men's Softball is \$85.

Interested team should come by the Park District office and fill out a team registration form and pay their entry fee as soon as possible, a spokesman said.

Spring betrothals, weddings of area couples

Valencia-Peach betrothal

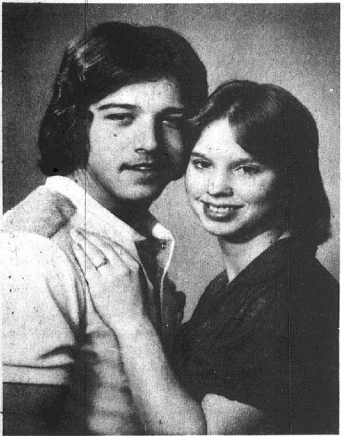

The engagement of Lorraine Peach and Jim Valencia is being announced by the bride-elect's parents, Mr. and Mrs. Richard E. Peach, 2832 Dogwood Drive. The groom-elect is the son of Mr. and Mrs. Theodore Valencia, 2122 Hamilton Drive.

A May 24 wedding to be solemnized at St. John

United Church of Christ is being planned.

Miss Peach graduated from Granite City High School South in 1979, and is employed at Hartford Insurance Co., in Creve Coeur, Mo.

Her fiancé is a 1978 graduate of North High School and is employed by the Terminal Railroad Co.

ENGAGED. A May 24 wedding is being planned by Lorraine Peach and Jim Valencia. The bride-to-be is the daughter of Mr. and Mrs. Richard E. Peach, 2832 Dogwood Drive.

MR. AND MRS. ALLEN SWEYAR, who were married March 15 at St. John Lutheran Church. The bride is the former Miss Brenda Hamm, the daughter of Mr. and Mrs. John Hamm, 2444 Kilarney Drive.

Brenda Hamm becomes Mrs. Allen Swayear

Miss Brenda L. Hamm became the bride of Allen R. Swayear in an afternoon ceremony on March 15 at St. John Lutheran Church.

The bride is the daughter of Mr. and Mrs. John R. Hamm, 2444 Kilarney Drive. Parents of the groom, Mr. and Mrs. Ray H. Swayear, reside in New Athens, Ill.

The Rev. Samuel Boda performed the double ring ceremony before an altar decorated with bouquets of flowers, burgundy ribbons and streamers.

The bride wore an Empire style gown of white organza accented with Venice lace on the Queen Anne neckline and bishop sleeves.

Her skirt was enhanced with an attached chapel train. She wore a fingertip veil secured by a Juliet cap. She carried a bouquet of pink silk carnations, red roses and white daisies with greenery.

Miss Mona Hackney attended the bride as maid of honor. Bridesmaids were Jackie Shelton, Tobey Smith and Melody Hamm, an aunt of the bride.

They wore pale pink organza gowns designed with scoop necklines and full

skirts. Set-in waistbands and ruffles created apron-effects.

Each attendant carried a bouquet of pink, red and white carnations with baby's breath.

Flower girls Christy Hamm, a cousin of the bride, and Amy Swayear, a niece of the groom, were attired in pink floral gowns with detachable capeslets. They carried baskets of pink, white and red carnations.

The groom chose Terry Hamm, an uncle of the bride, to serve as best man.

Groomsmen were Robert Hamm, a brother of the bride, and Roger and Terry Swayear, brothers of the groom.

Tom Early and David Claus seated the guests. Adam Swayear, a nephew of the groom, was ring bearer.

A rehearsal dinner was held at Valentine's Restaurant in Freeburg. The reception was held at Polish Hall.

The bride attended Granite City High School South. Her husband graduated from Freeburg High School and is employed with the Ray Swayear Amusements Co.

Miss Overbey is engaged

A Fourth of July wedding is being planned by Miss Tina Sue Overbey of E. St. Louis and Glenn A. Flanigan of Granite City.

The bride-elect is the daughter of Mr. and Mrs. James C. Overbey of E. St. Louis. Mr. and Mrs. Jimmie M. Flanigan, 3164 Jill Ave., are the parents of the groom-elect.

JULY FOURTH WEDDING PLANNED. Miss Tina Overbey of E. St. Louis and Glenn Flanigan of Granite City are planning a July 4 wedding. The groom-elect is the son of Mr. and Mrs. Jimmie Flanigan, 3164 Jill Ave.

PARTY HONOREES. Mr. and Mrs. Ernest Presswood, 2808 Edwards St., celebrated their 50th wedding anniversary at a buffet dinner and dance at the Collinsville Recreation Club, given by their sons and daughters-in-law.

Mr., Mrs. Presswood mark 50th anniversary

Mr. and Mrs. Ernest Presswood, 2808 Edwards St., celebrated their 50th wedding anniversary at a buffet dinner and dance held at the Collinsville Recreation Club.

Hosting the social event were the honoree's sons and daughters-in-law, Mr. and Mrs. Russell Presswood and Mr. and Mrs. David Presswood.

Mr. Presswood and his wife, the former Lela M. VanMeter, were married on Feb. 8, 1930, in Chester, Ill.

They resided in Chester until moving to Granite City in 1943.

They also have seven grandchildren and three great-grandchildren.

The guests of honor received approximately 100 relatives and friends at the celebration.

Mr. and Mrs. Presswood were also honored on their wedding date, Feb. 8, at a dinner at Ravanelli's Restaurant attended by their sons and wives.

Jo Burgener is president

Jo Burgener was elected president of the O.B.N. Club at its March meeting. Other officers are Margetta Sackett, vice-president; and Marie Garner, treasurer.

The club membership consists of co-workers from the O'Beir-Nester Glass Co., which closed in 1979 after 88 years.

A white elephant auction was held with the proceeds going to the club treasury. Plans were made to visit the Madison County Nursing Home.

The club members planned an evening out for April 25. Games were played

and prizes were given to several members.

A buffet was served by the hostess Mrs. Connie Hartline to those mentioned and Mary Broghers, Mrs. Louis Hill, Larkey Serano, Loretta Hughes, Ginger Howard, Theola Garcia and Darlene Frank.

Mrs. Hill will host the next meeting on April 28.

Betty Beck is elected new council president

Betty Beck of Pi Eta Chapter of Beta Sigma Phi Sorority, was elected 1980-81 president of Beta Sigma Phi City Council at a meeting at the home of Arlene Haldeman, president of the council.

Also elected were Carol Moerlen, vice-president, of Nu Zeta Chapter; Delores Dorch, secretary, of Precceptor Beta Gamma; and Judy Bartel, treasurer, of Xi Epsilon Chi Chapter.

Marie Goltz was introduced as a new member and reports were read by the secretary and treasurer.

Vice-President Augusta Lampe reported on get well cards. Mrs. Butler announced that the Golden Agers are hosting a chicken dinner Tuesday at 12 noon.

It was requested that all members visit the Health Fair, which will be held April 23 at the Granite City Township Building from 11 a.m. to 7 p.m.

Birthdays were celebrated by Augusta Hessman, Myrtle McDowell, Lena Harmsen, Carrie Durell, Rachel Smith, Goldie Grief, Bertha Trieman, Hazel Runk, Rose Schmitt and Anna Byland.

Mrs. Harmsen, who celebrated her 80th birthday, received an Easter lily and a corsage.

Guests present were Carol Jean Groves, Edna Branding, who also celebrated a birthday, and Laney Costello, the granddaughter of Hester Shelton.

The next meeting will be a potluck on April 16, according to Mrs. Butler.

Memorials made by senior citizens

Anchorage senior citizens met last week and sent a donation to the Hospice of Madison County in memory of Neva Werth.

A thank-you card in memory of Vera Schillinger by her family was read by President Georgia Butler.

Marie Goltz was introduced as a new member and reports were read by the secretary and treasurer.

Vice-President Augusta Lampe reported on get well cards. Mrs. Butler announced that the Golden Agers are hosting a chicken dinner Tuesday at 12 noon.

120 ATTEND MOOSE EASTER EGG HUNT
Granite City Moose Lodge 272 held its Easter egg hunt at Wilson Park. Approximately 120 children attended.

Prizes were given for 1st, 2nd and 3rd places in the hunt, and for a "golden egg" in each age group. Chairmen were Walter Anders, Chuck Westbrook, Jean Teller and Rozella Mead.

Miss Minner to marry

An Aug. 23 wedding is being planned by Elissa Minner and Mark C. Moerlen, both of Granite City.

Parents of the bride-elect are Mr. and Mrs. Lowell Minner, 2510 Parkview Drive.

The groom-elect is the son of Mr. and Mrs. Norman Moerlen, 2209 Washington Ave.

Miss Minner graduated from Granite City High School North in 1979, and is

employed at Traveler's Insurance.

The prospective groom is a South High School graduate and is employed at Michigan Metals. Both are planning on attending Lewis and Clark Community College.

AIR FORCE PROMOTES DOYLE W. ELLEDGE
Doyle W. Elledge, son of Mr. and Mrs. David Ellis of 3120 W. 20th St., Granite City, has been promoted in the Air Force to the rank of airman first class.

Elledge is an aircraft maintenance specialist at Columbus Air Force Base, Columbus, Miss. He is a 1977 graduate of Granite City High School South.

TO MARRY. Miss Lynna Hill and Donald Jenkins are planning a June 14 wedding, to be held at Niedringhaus United Methodist Church. The bride-elect is the daughter of Mr. and Mrs. Lynn Hill of Granite City.

Parents of the prospective groom are Mr. and Mrs. Milford Jenkins of Wentzville, Mo.

The bride-elect graduated from Granite City High School South in 1977 where she was active in band and Future Secretaries Association.

She also attended Hickey's School of Business, and is presently employed as a stenographer at Southwestern Bell.

Her fiancé graduated from Wentzville High School in 1975 and is employed as a sales manager at Bushnell Carpet.

A June 14 wedding is being planned by the betrothed couple and their families. The ceremony will take place at Niedringhaus United Methodist Church.

ARTHUR MARRIES
On Nov. 15, 1951, Arthur, Prince of Wales, married Catherine of Aragon.

Portraits garnering recognition for local photographer in Southwest

FORMER GRANITE CITYAN. Bill Lindsey is pictured with his wife, Sharon, as they won nine awards at the 1980 New Mexico state professional photographers competition, including "best color portrait" and "best of show."

Mr. and Mrs. Lindsey own and operate two photographic studios in Farmington, N. M., and Gallup, N.W.

Lindsey, a 30-year resident of Granite City, attended primary school and high school here. He is the son of Mrs. Faye Lindsey, 2609 Hodges Ave., and the late Leo Lindsey.

Auto, interest trends slow area economy but job growth still is forecast for 1980s

Regional Commerce and Growth Association

The St. Louis Metropolitan area economy grew by 112,000 jobs from the trough of the 1973-75 recession to the second half of 1979, a growth in payroll employment of over 12 percent. But this period of growth showed signs of slowing down in 1979. Payroll employment fell from 5.6 percent of the labor force in 1978 to 5.3 percent in 1979. This growth in employment was much lower than experienced each year since the last recession.

A possible end to the current period of business expansion is indicated by the St. Louis Business Index, which fell by 1.6 percent from 1978 to 1979. This drop suggests a slight decline in total business output.

This is possible, despite the gains in employment, since these gains occurred in sectors with lower productivity, such as services; losses in employment occurred in sectors with higher productivity, such as manufacturing.

Once the current economic slowdown is over, business activity in the region is expected to resume its upward path.

St. Louis' location at the center of population of the U.S. should make it an increasingly attractive location for business as rising fuel costs make transportation more and more expensive.

The renewed emphasis on defense spending by the federal government also should boost business activity.

Projections of economic growth by the Rice Center in Houston, Texas, show employment growing by 108,000 jobs over current levels by 1985, and regional output growing by 22 percent, measured in constant dollars.

In the decade following, employment is projected to grow by 131,000 jobs from 1985 to 1995, and output by 39 percent.

The fastest growing sector will be Services, which is expected to grow by 23.3 percent in employment and by 56.4 percent in sales over this ten-year period.

Because of productivity changes, growth rates for employment and sales (output) produce different rankings for the other sectors.

Transportation, Utilities & Communications is ranked second in sales growth rate (56.2 percent). But, because of rising productivity, it is projected to grow more slowly in employment than the economy as a whole.

Wholesale and Retail Trade are expected to grow at nearly the same rates in total sales (47.9 percent and 47.4 percent), but Wholesale

Trade is expected to grow much faster in employment (20 percent versus 13 percent for Retail Trade).

Manufacturing is projected to grow by 32 percent in total output. Most of this growth is expected to derive from productivity increases, employment is projected to grow by only 1.7 percent.

Fabricated Metal Products is expected to be first among manufacturing sectors in output growth (47 percent) and first in employment growth (12 percent).

Electrical Equipment ranks second in output growth (46 percent) and third in employment growth (19 percent).

From 1978 to 1979, Manufacturing employment fell by 1,800 jobs. Gains in industries such as Electrical Equipment, Primary Metals, Machinery, and Aircraft Construction were more than offset by losses in auto manufacturing. Food Processing also contributed to the net loss of manufacturing jobs.

However, the year 1979 saw the location or formation of eleven new manufacturing companies in the region.

Major expansion activity was begun by another 36 manufacturing companies. Non-manufacturing grew by 8,800 jobs in 1979, with the largest gains in Services, Contract Construction, Transportation Services, Utilities & Communications, and Finance, Insurance and Real Estate.

Employment fell in Retail Trade and Government.

The population of the region reached an estimated 2,453,200 by Jan. 1, 1980, an increase of 42,309 over the number reported in the 1970 census. The counties which gained the most in population were St. Louis County, St. Charles County, and Jefferson County.

Retail Sales grew from \$7.7 billion in 1978 to \$8.1 billion in 1979, an increase of 5.1 percent.

However, this was not enough to keep up with inflation. Prices rose by 13.3 percent from November 1978 to November 1979.

Also failing to keep up with inflation, savings in Savings and Loan institutions grew by 6.5 percent, and deposits

in Commercial Banks grew by 1.1 percent from 1978 to 1979. Loans by Commercial Banks grew by 11.2 percent.

It was a good year for construction. After allowing for inflation, the total dollar value of 1979 construction (expressed in constant prices) fell slightly by 0.5 percent from 1978.

But this total value was still high enough to make 1979 the third best year for construction in the '70s.

There was a big decline in the "real" value of residential construction because of high mortgage interest rates and difficulties in obtaining loans at any price, despite changes in the usury laws.

The number of housing units for which building permits were issued fell from 15,219 in 1978 to 10,639 in 1979. But this drop in residential construction was almost completely offset by a big increase in non-residential construction.

The value of non-residential construction, expressed in constant prices, was the second highest yearly total in the '70s. This boom in non-residential construction is continuing in 1980. The McDonnell-Douglas Corp.'s Automation Center, a \$50 million computer services

complex begun in 1979, will be finished in 1980. J. C. Penny Co. will begin construction in the spring on a 127,000 sq. ft. distribution center and regional office complex in Earth City, and a branch department store of 157,000 sq. ft. in the Alton Square center.

The St. Louis area continues to attract national organizations as a location for their headquarters. The National Bowling Hall of Fame will build in downtown St. Louis across from Busch Memorial Stadium. The Aluminum Workers' International selected Crossroads Park for their new headquarters.

Largest project to begin in 1980 is the \$80 million Clayton Center complex. This project will contain a 500,000 sq. ft. office building, three buildings containing 204 condominiums, a 650-room luxury hotel, and a 50,000 sq. ft. enclosed retail mall.

Other projects underway in 1980 include the \$48 million Pulitzer Publishing Co. complex (five-story television studio and 18-story offices); the \$29 million addition to the Marriott Pavilion hotel; and the \$23 million Anheuser-Busch corporate headquarters.

Mrs. Berkley dies at 93

Mrs. Ellen V. (Holland) Berkley, 93, of 4017 North St., died at 5:10 a.m. Friday at Eden Village Care Center, Glen Carbon.

She was born in St. Louis on July 5, 1886, and was a 56-year resident of Granite City.

DAY GIVES PROBATION Associate Judge John W. Day has ordered Alice Rogers, 26, of the 700 block of Ashland Avenue, Mitchell, to serve one year of unsupervised probation after she pleaded guilty to a misdemeanor charge of theft. The sentencing took place in Madison County Circuit Court.

Ozone monitoring program in state

A special air monitoring program to measure background ozone levels in selected rural areas throughout the state started this month at Shawnee Community College at Ulin.

The program is being conducted by the Ambient Air Monitoring Section of the Division of Air Pollution Control, Illinois Environmental Protection Agency.

A van specially equipped with ozone monitoring and meteorological equipment will be located at Rend Lake College, Ill., during May; Bloomington-Normal in June; The Moline-Rock Island area near Cordova in July; north of Rockford near Roscoe in August; at Bunker Hill in September, and at Mt. Carmel in October.

Purpose of the program is to gather information on

concentrations of ozone in the rural areas — to determine the validity of the theory that ozone forms as it travels over long ranges from the original sources of pollutants.

Ozone is formed by a complicated photochemical reaction between sunlight and hydrocarbon and nitrogen oxides emissions, in the presence of warm temperatures.

In months to come, the van will be located at Rend Lake College, Ill., during May; Bloomington-Normal in June; The Moline-Rock Island area near Cordova in July; north of Rockford near Roscoe in August; at Bunker Hill in September, and at Mt. Carmel in October.

Warn against offers to fill out census forms

Madison County residents were asked by the Madison County Sheriff's department today to report to police or county authorities any telephone attempts to solicit fees for filling out census forms.

The sheriff's department said it had been notified by Chester Seibert, manager of the field office for the census in St. Louis, that a number of elderly persons have received calls from persons offering to aid them in filling out their census questionnaires.

Sheriff's officials said the callers are asking a fee of \$75 to assist in filling out the forms.

There is no authority for anyone to charge fees for such assistance and calls of such solicitations will be investigated, it was announced.

Granite City Police Chief Ronald Veizer also has warned against callers who attempt to get information from local residents. He said one elderly woman reported she had received a telephone call from a person claiming to be a census taker. The caller asked the woman questions, including how much money she had in the bank and where she kept her bank account.

There are no such questions in the census form and no one has authority to solicit census information by phone, he noted.

Gomer Hilliard, 79, dies

Gomer Hilliard, 79, of 11619 North 32nd Ave., Phoenix, Ariz., formerly of Granite City, was pronounced dead on arrival at Phoenix Baptist Hospital at 10:30 a.m. Friday. He had been ill for three months and was stricken at home.

Mr. Hilliard was born in Tennessee Ridge, Tenn., and lived in Granite City 55 years.

He retired in 1966 as a hoisting engineer crane operator at Bierman Metals Co. in St. Louis. He moved to Phoenix nine years ago.

His wife, Mrs. Glynn Hilliard, died in 1964.

He is survived by one daughter, Mrs. Dora Marie Till of Phoenix; one son, Royce Hilliard of Granite City; A brother, Grady Hilliard of Detroit, Mich.,

and one sister, Mrs. Pearl Potts, also of Detroit, and four grandchildren.

Funeral services were to be held at noon today. Details are given in the obituary column.

LIQUOR STOREN Two bottles of liquor were the only items known missing after a break-in was discovered at the home of Gloria Carlile, 4901 Redwood Lane, at 12:15 a.m. Saturday, according to Madison County sheriff's deputies.

The victim told officers she saw two juveniles run off her back porch as she arrived home. Both boys had dark hair and wore dark clothing, she said.

How to save big on furnace fuel bills with a \$9.95 length of dryer vent.

FIRST NATIONAL BANK

Mrs. Janet Monaghan heads Xi Epsilon Chi

Xi Epsilon Chi Chapter of Beta Sigma Phi Sorority, elected Mrs. Janet Monaghan as 1980 chapter president during a meeting hosted by Mrs. Monaghan last week.

President Judy Bartel presided over the business segment.

Other to serve with Mrs. Monaghan for the ensuing year include Janet Hands, vice-president; Terry Davis, recording secretary; Mrs. Bartel, corresponding

secretary; Dorothy Simpson, treasurer.

Named delegates to the Sorority City Council were Mrs. Monaghan and Mrs. Bartel with Joan Pritchard and Janet Hands to serve as alternate delegates and Candy Thompson as extension officer.

Mrs. Bartels was also appointed chairman to coordinate activities to celebrate the 50th anniversary of Beta Sigma Phi in accordance with a request from International officers.

Mrs. Carol Cathey, Barbara Johnson and Marilyn Lumpkins will progress next year to Preceptor Beta Gamma Chapter, it was noted.

Two ritual ceremonies were held, one was a ritual of jewels for Janet Hands by Mrs. Cathey and a pledge ritual for Anastasia Elieff by Mrs. Bartel.

In other business discussions, Cookie White, ways and means chairman, announced the next chapter project will be a garage sale on April 26 at the home of Carolyn Walsh on State Street.

Mrs. Hente gave a review of social events held in March to include a Valentine and St. Patrick day party hosted for members and their husbands. A buffet supper was held followed by an evening of games.

April 14 will be in the home of Joan Pritchard, it was noted.

Mrs. Gusewelle attends meets

Mrs. Sara Gusewelle, junior graduate regent of Granite City Chapter of the Women of the Moose, participated in area Green Cap day meetings, as a representative of the local organization.

The initial visit was to the Wood River Chapter where she served as senior regent in honor of Dolores Murphy, who is junior graduate regent.

After the event a basket party was held during the social hour and refreshments were served to 55 members and guests.

Mrs. Gusewelle also presided as senior regent for Green Cap in honor of Gail Bough of the East St. Louis Chapter, the following week.

Mary Christian, grand council member from Maplewood, Mo., was the main speaker. She gave a talk on the changes in the new ritual.

Others from Granite City attending were Marian Lipscomb, ritual director, and Edna Miller.

Mrs. Gusewelle plans to attend similar events at the Belleville, Edwardsville and Alton chapters in future weeks, it was announced.

Venice Women's Club meeting

Officers reports were submitted at the April meeting of the Venice Women's Club held in the Venice Recreation Center.

Mrs. Elenora Weber, president, presided during the business segment.

A social hour followed featuring games and prizes provided by hostesses, Mesdames Clara Krause, Aline Patterson, Lisa Bauer and Maude Lewis.

A dessert luncheon was served by the committee to those named and to Mesdames Bertha Pace, Lula Kowalski, Elsie Caver, Mamie Ponce, Rose Scaturro, Hazel Pozniak, Linda Marcus, Evie Owens, Allene Marcus, Grace Grimes, Jane Harris, Ruth Canver, Alice Mitchell and Madonna Groshong.

BREIDENBACH ON NTS HONOR ROLL

North Texas State University has released the fall semester honor roll which lists 1,434 students. Of the 17,228 students enrolled, 330 were listed on the 4.0 (all "A's") honor roll and 1,104 were named to the 3.5 listing, which includes those whose grade average was midway between an "A" and a "B."

Named to the 3.5 honor roll was James M. Breidenbach, the son of William E. Breidenbach, 9 Eudora Drive, Granite City.

EDITH YOUNG IS CLUB HOSTESS

Mrs. Edith Young hosted the We Five Club last week in her home. After a luncheon was served, games were played.

Prizes were awarded to Della Hagen, Carolyn Lux and the hostess. It was noted that member Emma Gobbie is in the hospital.

GC building permits total \$261,026

Fifty-seven building permits listing values totaling \$261,026 were issued by Granite City during March, according to the monthly report issued by Bill Dallas Jr., inspection department clerk.

Among the projects granted permits were \$25,000 B. V. & G. Transport maintenance building for trucks at 16th and State streets, and a \$28,000 platform scale at American Colloid, 1601 Walnut St.

Commercial projects include steel siding over the rear wall at Factory Outlet Shoes, 1304 Nineteenth St.

The siding will complement a mural CETA workers and high school art students plan for the blank wall as part of a beautification program. The wall has been considered an "eyesore" since first destroyed the building next door.

Other commercial projects include remodeling the front and interior of the Rock Church, 1918 State St., at a cost of \$5,000; an \$8,000 program by American Steel to break the curbing and pour concrete driveways at 1700 Walnut St.; a \$2,000 roof for the Ashby Agency, 2032 Edison Ave., and an \$800 project to tar the roof at Creative Travel Agency, 3910 Nameoki Road.

Two new homes also are in

the permits. Helmar Homes plans to construct a \$46,000 house at 3357 Colgate Ave. and Dave Farley obtained a permit to construct a \$20,000 house at 2713 Denver St.

Other permits were issued to:

Harold Coy, 3017 Marshall, patio and tool storage area, \$1,000; Dial Finance, 3224 Nameoki Road, sign, no cost listed; Robert LeVary, 2828 Center, garage, \$3,000; Kevin Ricks, 2166 Waterman, garage, \$4,000; Clara Bauder, 2884 Grand, roofing, \$2,500, and Ingleside Tavern, 2265 Madison Ave., sign, no cost listed.

Earl Jeppert, 738 Twenty-eighth Place, room addition, \$1,800; Vernon Brown, 2805 Buxton, garage, \$1,200; Michael Ramsey, 1719 Chestnut, patio deck, \$300; William Zimmer, 2705 Idaho, family room addition, \$28,000; Joseph Zimmer, 2809 Willow, bedroom addition, \$4,500, and Bob Schroeder, 1405

Norwood, addition, \$2,600. James Dortch, 3217 Aubrey, siding and soffit, \$3,551; Cecil James, 1829 Bremen, room addition, \$2,000; Jerry Rosenberg, 2648 Adams, roof, \$700; Ken Cole, 2204 Wilson, roofing and siding, \$1,800; Ron Lajewski, 2828 Warren, room addition, \$2,000, and John Kampman, 1741 Chestnut, mobile home, \$4,000.

Dorothy Renaud, 1517 St. Clair, attached garage, \$2,000; Elmo Bury, 101 Riviera, repair roof, \$1,000; Leroy Range, 2157 State, siding, \$2,300; Jimmie Cotner, -131 Briarcliff, bedroom and dining room addition, \$7,500; Louis J. Sharp, 2127 Illinois, enclose porch, \$300, and Edward Broyles, 1516 Garfield, patio, \$300.

Mark Hill, 2716 Madison, front porch, \$500; Dayspring Book Store, 3717A Nameoki Road, sign, no cost listed; Steve's Restaurant, 19th and State, sign, no cost listed;

Gerald Wethy, 2029 Illinois, room addition, \$1,000; Super Print Inc., 2011 State, sign, no cost listed, and Don Warren, 1923 Lynn, bedroom addition, \$4,000. Delores Klesh, 2738 Grand, roof, \$1,000; Alfred Schreiber, 3242 Colgate, soffit and gutters, \$1,600; Minnie Pike, 2148 Adams, roofing, \$900; John Ropac, 3300 Colgate, roof, \$2,000; Mildred Gray, 1608 Garfield, roof, \$3,000, and Tom Baldwin, 2451 Missouri, garage, \$2,500.

Kenneth Shipp, 2428 Illinois, garage, \$2,000; Lombardi Brothers, 2337 Street and Madison Avenue, sign, no cost listed; James Rodger, 3001 Buxton, enclose porch, \$500; Kenneth Yenger, 2838 Palmer, addition, \$5,195; Mark Skinner, 2938 Myrtle, enclose porch, \$400; Paul Wilson, 1707 Edison, repair fire damage, \$2,000, and Ann Tatum, 2008 Grand, brickwork, \$5,900. Betty Barron, 2325 Waterman, brick veneer, \$5,500; Richard Ahlers, 3107 Wayne, garage, \$2,000; Wallace Holder, 104 Wilson Park Lane, sidewalk, \$100, and Les Holsinger, 1605 Pontoon Road, garage, \$5,000.

A permit for Holsinger to raze the present garage at that address was among 12 razing permits granted during March, according to the report.

Granite City Steel obtained permits to raze houses at 3038 Park and 3043 Quincy, at a cost of \$1,000 each, and S.M. Wilson Construction Co., is to raze a commercial building at 1608 Cleveland, at a cost of \$2,000.

Other permits were granted to William Beatty to raze a porch at 2325 Cleveland, Harold Corner to raze a house at 2809 Cayuga, Edward Broyles to raze a storage shed at 1516 Garfield, Albert Delaloye to demolish a four-room house at 2819½ Lincoln, James Gibson to raze a carport at 1401 Niedringhaus, Kevin Ricks to raze a garage at 2166 Woodlawn, Tom Balwin to level a garage at 2431 Missouri, and Andrew Collier to raze a structure at 2922 Rosevelt.

The city also issued 22 electrical permits, six sewer permits, eight heating permits and three plumbing permits during March. Building permit fees collected totaled \$503.

Boy robbed in Lincoln Place

A 9-year-old boy who lives in the 1700 block of Maple Street was robbed by two young boys, one armed with

a baseball bat, at Niedringhaus Avenue and Maple Street Thursday.

The victim said he had just left Vartan's Market when two boys, 9 to 10 years old, approached him and demanded money. When he said he had none, they threatened to beat him and knocked a sack of groceries from his hand, breaking a carton of milk.

The boys then searched the victim's pockets, stealing about \$1.50, he related. One boy swung the baseball bat at him, hitting his right thumb, which was swollen after the incident, police were told.

3-YEAR PRISON TERM

Spencer T. Wilson, 18, of the 1700 block of Rhodes Street, Madison, has been sentenced to serve three years in prison after pleading guilty to possessing an altered vehicle title and felony theft. The plea was accepted by Circuit Judge Victor J. Mosele in Madison County Circuit Court.

According to court records the theft occurred Christmas Eve, 1979, two days after he allegedly possessed the altered title. A forgery charge from a Dec. 22, 1979, incident was dismissed.

90-DAY JAIL TERM

James Henry Noblin, 19, of the 100 block of Roosevelt Drive, Eagle Park Acres, has been sentenced in Madison County Circuit Court to serve two years of probation and 90 days in the Madison County Jail after pleading guilty to burglary which occurred Dec. 24, 1979. Associate Judge John W. Day pronounced sentence.

BURGLARY SENTENCE

David Howard Clark, 17, of 2519 E. 23rd St., has been sentenced to serve two years of probation and 90 days in the Madison County Jail after he pleaded guilty of burglary. He allegedly broke into the home of Donald Hazelwood, 2519 E. 23rd St., Dec. 9, 1979. Circuit Judge Victor J. Mosele pronounced sentence.

Hearings on mined land

The state's procedures for dealing with abandoned mined land problems will be the subject of discussion at four public meetings, it was announced by Lt. Governor Dave O'Neal, chairman of the Abandoned Mined Lands Reclamation Council.

The meetings will be held at 7:30 p.m. April 11 in Pickneyville, 1 p.m. April 12 in Marion, 9:30 p.m. April 14 in Galesburg and 10 a.m. April 18 in Springfield. The first three locations will be the Perry, Williamson and Knox county courthouses and the last will be in Room 400 of the State Capitol.

O'Neal explained the Federal Surface Mining Control and Reclamation Act of 1977 established a program to address problems caused by abandoned mined lands.

To qualify for federal funds, a state must meet a series of legal requirements. Specifically, the state must prepare and submit to the Federal Office of Surface Mining a state reclamation plan indicating how the state will approach its abandoned mined land problems.

The Abandoned Mined Lands Reclamation Council is seeking public review and comments. At the four public meetings, the State plan will be reviewed, and an opportunity for questions and comments will be provided.

Public comments will be received through April 30. The state reclamation plan will then be completed and submitted to the Federal Office of Surface Mining in June.

Draft copies of the plan are available for public viewing. Copies have been provided to county clerks and regional planning commissions.

In addition, citizens may obtain copies of the draft plan by contacting the Abandoned Mined Lands Reclamation Council, 704 William C. G. Stratton Building, Springfield 62706.

Twenty cents per copy by mail to Granite City Rural Route, \$19.50 per year. First-class zones, \$21.40 per year. Third zone, \$23.40 per year. Fourth zone, \$25.40 per year. Fifth zone, \$27.40 per year. Sixth zone, \$29.40 per year. Seventh zone, \$31.40 per year. Eighth zone, \$33.40 per year. For months, one-half annual rate. Service: \$9.80 per year, \$4.90 for 6 months. anywhere in the world.

Method needed to upgrade area bridges, increase use

The price tag remains the chief problem, but this metropolitan area may be moving nearer to solving the longtime problem of an overly-busy free bridge and relatively idle toll bridges.

A possibility that ought to be rejected is the construction of a new bridge to supplement the Poplar Street Bridge. The cost would be at least \$155 million, and it would further devastate the western section of East St. Louis. Already existing ramps and roads, elevated and otherwise, make that area look much like a plate of spaghetti (when viewed from the air).

All present vehicular bridges, except Poplar Street, suffer from insufficient traffic volume and revenue. The Venice-owned McKinley Bridge is attracting about as much money as its basic operating costs, but maintenance is falling behind. The Martin Luther King Jr. Bridge owned by East St. Louis and the Eads Bridge owned by the Terminal Railroad Association are both "in the red" financially. St. Louis' MacArthur Bridge is now toll-free but its location is not convenient for most motorists and its condition has deteriorated.

Current circumstances were predictable as long ago as the 1960s, when plans were announced for the toll-free bridge now carrying Interstate 270 over the Mississippi River. Madison officials denounced it as creating a dam across the river, eliminating its use as an alternate shipping route in the event that some storm or enemy put the Chain of Rocks Canal out of operation. But their real fear, fully justified, was that the toll-free span

would put Madison's toll-collecting Chain of Rocks Bridge out of business.

Carrying Interstates 55 and 70, the free, federally-built Poplar Street Bridge—constructed in the mid-1960s—has caused the same problem for the toll bridges near it.

Since the same public is affected and has an equal need for bi-state access, it would seem logical to pool the assets, make the crossing charge uniform (no toll), and keep all of the bridges in safe operating condition.

Once there was no free-vs.-toll differential, the bridges' usage undoubtedly would be altered, easing congestion considerably and reducing collision hazards.

Tools include altering King Bridge ramps so that they connect with Interstate highways on the Missouri side. Much also must be done to strengthen and improve the other bridges.

An East-West Gateway Coordinating Council study is pointing the way toward such goals, and preliminary findings were made public last week.

The Gateway board may take up the bridge issue this month, decide on what course to follow by summer, and submit recommendations to the federal government in November on ways of easing bridge bond debts and physically upgrading the bridges.

Because traffic congestion is costly in money, time and fuel, and also can endanger the economic development of this region, all citizens are hopeful that a sound plan of action will be chosen and implemented.

Auditor Kraynak helped keep county of 'red ink'

Hardly had the dust of the primary election battle settled before County Auditor John L. Kraynak had retired due to health reasons, enabling the new auditor nominee, Arthur "Pete" Fields, to take over an audit of the countywide elective office as long as the former Madisonian, now a Granite Cityan. When he was first elected as auditor in 1972, the Madison County governmental budget totaled \$1.6 million and there were 14 ledger accounts. Now, there are 48 computerized accounts and overall spending of \$2.8 million.

Although doubling in size from two in

1962 to four today, the office staff remains the smallest in the County Courthouse. Many friends and colleagues gathered to wish him well in his retirement years at Terre du Lac, Mo., near his original home town of Bonne Terre.

John Kraynak primarily sought respect, rather than settling for an easy-going approach designed mainly to foster friendships. But he achieved both.

His budgeting and auditing procedures sometimes stepped on toes, when necessary, but he kept the county avoid "red ink" throughout his seven terms in the office.

False report to police alleged

Alan K. Nunn, 23, of 3000 Faith Ave., was charged with disorderly conduct, leaving the scene of an accident and reckless driving after his auto allegedly was involved in an accident at 15th Street and Grand Avenue at 2 a.m. Sunday. Witnesses said a car was westbound on 15th Street and turned left onto Grand Avenue, but struck a utility pole on the corner. It then allegedly backed up, went forward into a guide wire, parking sign and fence at 444 Grand Ave., and then backed up again and left the scene.

Mayors to hear Earl Lazerson

Dr. Earl Lazerson, acting president of Southern Illinois University at Edwardsville, and Bill Sutton of the Army Corps of Engineers will be the speakers at a meeting of the Southwestern Illinois Council of Mayors at the Moose Hall in Wood River April 23.

The evening will begin with a social hour at 6 p.m., followed by dinner at 7 and the meeting at 8.

Dr. Lazerson will speak on "Looking Up and Looking Ahead," concerning the future of SIUE and the future of the region. Sutton will discuss plans for the new dam.

HOME BURGLARIZED

Bill Schneider, 43 Iris Circle, Pontoon Beach, returned home Thursday afternoon from a vacation in Florida to learn his home had been burglarized. Schneider was to prepare a list for police, of items taken. Items missing included: a fur coat, two portable televisions, silverware, cameras and several items of jewelry with a combined total estimated value of \$4,286. An estimated \$300 in damages was done to the inside, as the home was totally ransacked, according to police.

EASTER EGG HUNT sponsored by the Venice Park District, attracted more than 65 youngsters to Lee Park on Saturday. A group of the children search two plots of pampas grass. The brightly decorated eggs were hidden by park board members and interested parents in and around trees, shrubbery

and any other places where an egg could be concealed. The children were divided into two groups to allow the smaller youngsters a chance to find eggs before the older group was allowed to look.

Motorcycle safety urged

By STATE POLICE

TROOPER JAMES GALLO

Motorcycle riders account

for over 10 percent of all

fatalities in motor vehicle

accidents. Most of these fatal

motorcycle accidents occur

during clear weather and on

dry road surfaces.

Sixty percent occur during

darkness. Fatal motorcycle

accidents occur

predominately during

weekends; in this period,

they occur three times more

frequently than they occur

during the balance of the

week.

Illinois Law requires that a

motorcycle when upon any

highway must exhibit one

lighted headlamp at all

times.

The operator of a

motorcycle must ride only

astride the permanent seat

or saddle and not permit

more than one other person

to ride thereon, nor such

other person ride on the

motorcycle unless it is

designed to carry two

people, in which event the

passenger must also ride

astride the permanent seat

or saddle.

Any seat or saddle

designed for a passenger

must be equipped with

permanent handgrips and

foot rests.

Every operator of a

motorcycle and passenger

must be protected "by

glasses, goggles, or a

transparent shield.

Riding on one wheel while

on any street or highway is

classified as reckless

driving.

The Illinois State Police

recommend and urge that all

motorcycle operators and

passengers wear a helmet. It

might save your life.

Every operator of a

motorcycle and passenger

must be protected "by

glasses, goggles, or a

transparent shield.

Riding on one wheel while

on any street or highway is

classified as reckless

driving.

The Illinois State Police

recommend and urge that all

motorcycle operators and

passengers wear a helmet. It

might save your life.

Every operator of a

motorcycle and passenger

must be protected "by

glasses, goggles, or a

transparent shield.

Riding on one wheel while

might save your life.

Every operator of a

motorcycle and passenger

must be protected "by

glasses, goggles, or a

transparent shield.

State will monitor prevention of environmental deterioration

The Illinois Environmental Protection Agency has been delegated authority to administer the Prevention of Significant Deterioration Law, effective today.

Directly affected will be new plants or modifications of major industries, such as steel mills, refineries, public utilities and chemical plants.

Permitting of such construction will be carried out in accordance with federal EPA source review provisions.

In effect, this gives the IEPA authority to issue required federal construction permits for major new or

modified air pollution sources in those areas of the state that meet or exceed federal air quality standards, assuring compliance with both state and federal requirements.

IEPA Director Michael P. Maury said today, "This delegation of authority eliminates the necessity for industry to make simultaneous applications for construction to both the state and federal agencies, cutting out a lot of red tape and duplication of effort for all concerned."

"With our experience in operating a construction permit program, we

should be able to reduce substantially the time required to obtain a permit."

Under the terms of the agreement, the IEPA will submit quarterly reports to USEPA which will include:

1. The stage of review of any proposed source whose application is under review.

2. The stage of construction and compliance status, as appropriate, of any source whose application has been acted upon but which is not yet operational.

3. The compliance status of any source which is operational.

Stucke files answer to suit

Granite City School Board President Donald Stucke on Saturday filed an answer to a suit by Board Member David Partney.

The Circuit Court suit calls for Stucke's seat on the board to be declared vacant to avoid any conflict of interest arising from the fact that his wife is a school district secretary.

The answer says a board member is not the occupant of an office within the meaning of Ill. Statutes Chapter 102, paragraph 3, nor does the suit allege facts constituting a "cause of action" against Stucke.

It adds that the suit was not brought by the attorney general or state's attorney and that neither was asked to sue. It concludes that Partney does not claim a special interest in the case beyond the common public interest. The answer was filed by Howard Boman of Dunham, Boman and Leskera, East St. Louis.

Convicted in robbery case

John Barber, 33, of Granite City, was convicted of a charge of attempted robbery by a circuit court jury at Hardin, Ill., last week. Sentencing is set for May 8.

The verdict resulted from an incident last Dec. 2 in which an attempt was made to rob Herron's Drug Store at Hardin of drugs.

Barber, who was identified by authorities as driver of the get-away car, was arrested six minutes after the attempted robbery.

William P. Strange of Poplar Bluff, Mo., pleaded guilty to attempted armed robbery and was sentenced to seven years in prison. Thomas B. Ward, 33, also of Poplar Bluff, was arrested following the incident and was sentenced to prison on other charges already pending in Missouri robbery case.

Barber could be sentenced to prison, from four to 15 years on the conviction, authorities said.

TWO CHARGED

Ronald M. Parks, 25, and Rick L. Parks, 22, of 247 Iowa St., were charged with disorderly conduct Saturday. Police said the charges were filed at 4:05 p.m. after officers were called to the men's home and found them fighting.

MADISON BREAK-IN

Tools valued at about \$150 were stolen from the home of William Dew, 2005 Troy Ave., Madison, it was reported to police by a neighbor Thursday. The burglary was discovered by a neighbor while Dew was out of the area.

TOOLS ARE STOLEN

Tools valued at about \$150 were stolen from the home of John Kirksey, 1817 Winrose Ave., Madison, it was reported to police by a neighbor Thursday. The burglary was discovered by a neighbor while Dew was out of the area.

Methodist discussions

The Wesley Foundation at Southern Illinois University at Edwardsville is sponsoring a series of discussions during the spring quarter on policies, issues and recommendations that come before the General Conference, the governing and lawmaking body of the United Methodist Church.

While the General Conference is in meetings in Indianapolis April 15-25, the local discussion groups will be supplied with daily reports on all actions taken and debates held during the meetings.

These reports, along with other studies ordered by the 1976 General Conference, will supplement the discussions.

Sessions will meet for two hours each week beginning Thursday. Available time periods are: Monday and Wednesday at 4:30 p.m., Tuesday and Thursday at 7:30 p.m.

News notes

Unemployment in the U. S. rose from 6 percent in February to 6.2 percent in March.

+++ Easter egg hunt winners at Wilson Park Saturday included Carrie Dockery, who found the most eggs among 290 pre-schoolers. Heather Epperson, among 90 kindergarteners, and Jason Grive, among 60 first graders.

+++ The Granite City air pollution engineer said biweekly annual reports again for 1979 will declare Granite City to have the worst concentration of particulates in the air among Illinois monitoring stations.

Many areas of the state have no air monitoring devices, however. Daily air quality reports for the St. Louis metropolitan area frequently show the Illinois portion to have good or moderate air, often superior to that in St. Louis.

+++ Illinois highway work may lose \$95 million in federal funds between now and Sept. 30 under the president's proposed budget cuts.

12:30 p.m., and Tuesday evenings from 7 to 9.

For more information and registration for times, interested persons may contact Jim Wheeler, director of the SIUE Wesley Foundation, at 692-3246.

Price lid extended

Donald O. Schnuck, president of Schnuck Markets, announced Thursday that Schnucks will extend the voluntary price ceiling which went into effect on March 7 for an additional 30 days.

The voluntary price ceiling will remain in effect for the 400 Staff Label items and 89 Plain Label generic items. Included under the voluntary ceiling are a wide range of staples, market-basket food and household products.

In announcing the voluntary extension, Schnuck said, "While the items which we have placed under the voluntary ceiling are significant to the consumer, we fully realize this is a small number in terms of the consumer's total needs."

"However, in response to the White House, we strongly support the concept that the time has come for all Americans and American businesses to exercise self-restraint and discipline. We hope this action will be beneficial in trying to help break the inflation hysteria in our economy right now."

"We are gratified that grocery prices have been falling during the first two months of this year, down 2 percent in January and down 4 percent in February, on a seasonally adjusted scale."

"As a result, during the 12 months ending in February 1980, supermarket food prices rose only 5.8 percent while the overall Consumer Price Index rose 14.1 percent."

Schnuck was at the White House on Thursday for a meeting with President Jimmy Carter and supermarket executives from across the country concerning the voluntary ceiling.

'Religion and ERA' to be topic of speakers

The Illinois Religious Committee for ERA together with the ERA Center in Alton will present "People of Faith for ERA" on Sunday, April 13.

Sonia Johnson of Mormons for ERA, Sister Maureen Fiedler, national coordinator of Catholics Act for ERA, and Rev. Virgil Santee of the American Baptist Church, U.S.A., will speak about the Equal Rights Amendment from a religious perspective. The program will be held in Alton at the College Avenue Presbyterian Church, located on College at Clawson, at 2 p.m. Sunday. It will be repeated that evening at the First Presbyterian Church of Belleville, Highway 161 at Royal Heights Road.

Delegate race decided by 218

The odds currently favor a relatively easy presidential nomination victory for Ronald Reagan. But if the Republican convention fight is decided by a narrow margin, the 23rd Illinois District delegate election will play a pivotal role.

When the last of the official canvasses of the March 18 primary election was completed last week, it became known that State Rep. Celeste M. Stiehl of Belleville had won the third of three delegate positions with 8,922 votes to 8,704 for Lorraine G. Wire, Mrs.

Stiehl ran uncommitted, while her opponent favored former California Gov. Reagan.

Relatively easy wins were gained by the other two members of the Reagan slate (no preferences were listed on the ballot due to the Illinois "blind primary" policy that was followed). Robert "Bob" Glenn led with 11,034 and Don W. Weber received 10,565 votes. St. Clair County and Madison County breakdowns and the grand totals for the GOP delegate aspirants follow:

Wilson H. West, 3,433 and 1,459 for a 4,892 total; Hugh Enyard 1,981 and 498 for a 1,574 total; Kenneth Fox 1,141 and 1,109 for a 2,250 total; Gladys Lauerman 1,538 and 716 for a 2,254 total; Charlotte Longwisch 765 and 1,065 for a 1,860 total; Frank L. Flanagan 1,614 and 1,246 for a 2,860 total; Glenn 7,087 and 3,947 for 11,034; Lorraine Wire 5,442 and 3,262 for 8,704; Weber 5,981 and 4,584 for 10,565; State Rep. Everett G. Steele of Glen Carbon 2,271 in St. Clair County and 3,246 in Madison County for a 5,517 total; Rep. Stiehl 6,923 and 1,999 for 8,922.

More decisive victories were achieved by seven Democratic national convention delegates, the complete canvass tallies showed last week. All seven are pledged to the renomination of President Jimmy Carter.

Winners are Rep. Monroe Pinn 12,510 in St. Clair County and 10,061 in Madison County for a total of 22,571; Clyde C. Jordan 11,220 and 9,586 for 20,806; Doris Jefferson 8,942 and 9,244 for 18,186; Martha R. O'Malley 12,352 and 9,076 for 21,428; Charles L. Hester, Granite City restaurant owner, 8,131 and 9,590 for a total of 17,721; George W. Donohoo 7,294 and 8,329 for 15,623; and Mrs. Betty Jean Mays 6,077 and 8,696 for 14,773.

The latter ran as a Carter delegate and was second on the ballot, while the party-endorsed slate of seven candidates appeared in the tenth through 16th ballot positions. The 16th listed, Katherine "Kay" Harrison, trained with 13,038, including 6,763 in St. Clair and 6,275 in Madison County.

A total of 26 candidates sought the seven Democratic delegate posts decided in the primary. The principal other contenders, although losing out, were the Kennedy backers: Carolyn Chapman 5,341 in St. Clair County and 5,732 in Madison County for a total of 11,073; Roy B. Hawkins 5,144 and 4,927 for 10,071; Elizabeth Morgan 5,107 and 4,883 for 9,990; Michael J. Stern 4,535 and 4,902 for 9,437; Betty Gerfen 5,041 and 4,640 for 9,681; Mable Dandridge 4,310 and 4,544 for 8,854; and Sam Chomko 3,911 and 4,986 for an 8,897 tally.

Three uncommitted delegate candidates fared fairly well. Glenda K. Arnett garnered

2,744 in St. Clair and 2,853 in Madison County for 5,597; Sheryl Clayton received 2,489 and 2,448 for 4,937; and Dorothy E. Feder obtained 1,851 and 1,389 for a 3,240 vote total.

Brown delegate hopefuls performed as follows: Sandra Littleton Uetz 746 and 597 for 1,343; Sally Silven Biarkis 509 and 566 for 1,075; Reavis Moore 557 and 554 for 1,111; Wendy Counsell 681 and 555 for 1,236; and Michael Ware 644 and 580 for 1,224.

Of the LaRouche supporters, Raymond Manwarren Sr. totaled 651 in St. Clair and 249 in Madison County for 900; Lloyd Misho 584 and 385 for 969; and Vern L. Middleton 355 and 305 for 660.

Congressional district totals for the three successful Carter alternate delegate candidates are: Riley L. Owens III 23,240 (12,348 in St. Clair and 10,892 in Madison County); Janet Kuehn 20,849 (10,329 and 10,520); and Woodrow "Woody" Moad 19,902 (10,304 and 9,598).

Outvoted as potential Democrat alternates were three Kennedy backers, Carole A. Kopis 11,291 (5,676 and 5,721); Frank J. Fuzessery 10,236 (4,837 and 5,399); and Norma Mendoza 10,892 (4,974 and 5,918).

Elected as Republican alternate delegates were James R. Crain 11,862 (7,218 in St. Clair and 4,644 in Madison County); H. Frank Holman 9,740 (6,062 and 3,678); and Erwin G. Plegge 8,907 (4,815 and 4,092).

Unsuccessful GOP alternate hopefuls were Rosalee Catalpa 6,148 (4,240 and 1,908); Marvin Wright 5,428 (3,664 and 1,764); Leo L. Craig Jr. 3,204 (1,912 and 1,292); Donald E. Weder 3,219 (1,624 and 1,595); Donald Melhorn 3,812 (2,898 and 914); and Sibyl H. Belliss 3,308 (1,631 and 1,677).

River currents, high levels possible now

"The season is here when high river stages or open river conditions quickly develop on the Mississippi River," James A. Petersen has warned. He is Chief of the Operations Division, St. Louis District, Army Corps of Engineers.

"In the event of open river conditions, strong cross currents exist above and below Lock No. 24, Clarksville, Mo., Lock No. 25, Winfield, Mo., and Locks No. 26, Alton, Ill. Particular attention should be paid to the upper approaches, where strong currents set toward the dam," Petersen commented.

"Serious damage to dam tainter gates or lock motor gates from barge collisions could easily cause loss of the pool, thereby jeopardizing all navigation in the Upper Mississippi River for an indefinite period."

"Pilots and operators of vessels navigating the above reaches are being requested to exercise the utmost caution and have their tow under complete control at all times."

"Lockages at locks in the St. Louis District will be governed by Section 207.300, Chapter II, Title 33, Code of Federal Regulations. The latest edition of these regulations may be obtained from any lock in this district or from this office upon request."

"For emphasis, Section 207.300, subparagraph (v) (4) describes the display of signals when a set-in current condition exists at the upper approaches to the locks and reads in part as follows: 'this

fact will be indicated by displaying a white circular disk 5 feet in diameter, on or near the light support on the upstream end of the land (guide) wall during the hours of daylight. 'It will be indicated during hours of darkness by displaying a white (amber) light vertically under and 5 feet below the red light on the upstream end of the land (guide) wall.'"

Ira E. Hill dies at 40

Ira E. Hill, 40, of 4831 Warnock Ave., a lifelong resident of Granite City, died at 3:40 a.m. Sunday at St. Elizabeth Medical Center. He had been in ill health for six years and was hospitalized for five days.

Mr. Hill was preceded in death by his father, Ira L. Hill, in 1975, and a sister, Mrs. Doris Maxine Stotz in 1976.

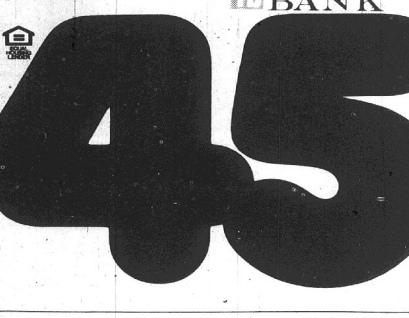

Survivors include his mother, Mrs. Helen Hill; two brothers, Phillip Dale Hill and James Leroy Hill, all of Granite City; and nieces and nephews.

Funeral arrangements are given in the obituary column.

SECRETARIES WEEK, as designated by

Mayors Paul Schuler of Granite City and Mike Sasyk of Madison, pictured left to right, is being discussed. Also pictured are Mary Gans, left, chairman, and Charlie Vunovic, president of the Tri-Cities Area Chapter of National Secretaries Association.

Secretaries Week is set for April 20-26

Mayors Paul Schuler of Granite City and Mike Sasyk of Madison have designated the week of April 20-26 as Secretaries Week.

The mayors ask that all businesses and industries join in giving recognition to secretaries, paying special attention to Secretaries Day on Wednesday, April 23.

Charlie Vunovic is president of the Tri-Cities Chapter of the National Association of Secretaries. Chairman for the week-long event is Mary Gans and committee members include Nancy Helen, Helen Christlich, Betty Dietrich and Kelly Voegel.

The local chapter will begin the week by attending mass at St. Margaret Mary Catholic Church on Sunday, April 20. Following the 11:15 service, the group will go to Charlie's Restaurant for brunch at a cost of \$5.95 per person, according to the chairman.

Monday, April 21, is "Be Kind to Your Boss" day.

The annual Secretaries Week Banquet will be held Tuesday, April 22, at Sunset Hills Country Club. A social hour will begin at 6 p.m. with dinner following at 6:30 p.m. The 1980 Secretary of the Year will be announced at the banquet, and past honorees will be introduced.

"Special Edition" will provide musical entertainment for dancing, which will begin at 8 p.m. Tickets for the event are \$12.50. Reservations must be made by April 15, and may be made by calling Betty Dietrich at 255-2238.

Secretaries Day is Wednesday, April 23. Club members are planning a luncheon at the Lennox Restaurant in St. Louis. Cost for the luncheon is \$6.95 and reservations may be made by calling Mrs. Vunovic at 342-6101.

Productivity assessment seen as less burdensome to farmer

Success of the new Farmland Assessment Law depends heavily on cooperation, uniformity and good information. That was the main thrust of a meeting attended by Madison County leaders last week in Mt. Vernon.

The key information, according to Len Gardner, executive director of governmental affairs for the Illinois Farm Bureau (IFB): "Good information leads to better, uniform administration of the assessment law. Greater cooperation between county Farm Bureau officials and local assessing officials leads to more equitable administration of the law."

Attending the meeting were Farm Bureau leaders and county officials involved in the assessment process. The new assessment law, which ties farmland property taxes more to productivity and less to market value, was prompted by a series of events, Gardner explained.

"It began with the tremendous increase of farmland prices in the mid to late 1970s. In the mid '70s, when acreage prices reached the \$3,000 plus level, state law required property to be assessed at 50 percent of full market value."

"In 1975, the Illinois Supreme Court remanded a case to the Lake County Court with authority to enforce that law requiring 50 percent of value assessment."

"In 1975, the Illinois General Assembly passed a law requiring all property be assessed at thirty-three and one-third percent of value. But, even at that assessment, land selling for \$3,000 to \$3,600 would be assessed at \$1,000 or \$1,200. With a 5% tax rate, property taxes would be \$50 to \$60 an acre."

Gardner said the new assessment law was designed to stabilize farm property tax increases, but avoid a major rollback in property taxes; establish productivity as a major ingredient in determining farmland values for assessment; use only sales reflecting agricultural sales in the portion of the

formula which was based on market values; and establish value of the best grade of land in a county rather than the average value, as under the market value approach.

The assessment law was passed by the Illinois General Assembly in June 1977 and signed by the governor that August.

Also speaking at the meeting was Tom Johnson, assistant director of the Illinois Department of Revenue. As the person with overall responsibilities for the new law's administration, Johnson described the law's provisions, including changes made in 1979 to protect its constitutionality.

Kurt Barrow, also from the Department of Revenue, discussed implementation of the law's formula for establishing value of various grades of farmland in the state.

Ron Hagaman, a third speaker from the Department of Revenue, explained the use of detailed soil surveys and soil association maps. They are used to identify the various soils for calculating the productivity index of the soil within a tract of land.

The Department of Revenue certifies to each county a top value to be used for that county's best land, and a value for the average land in the county. Top and average values are for tillable land only.

The Department has guidelines to be used by local assessing officials to debate those values because of certain adjustments. Adjustments will be made for certain roads, drainage districts, grass waterways, windbreaks, creeks and rivers for flooding, and for various slope and erosion factors.

Permanent pasture, woodland and wasteland (all non-tillable land) are to be valued in relation to their market or rental value, compared to the market or rental value of tillable land of comparable productivity.

For example, permanent pasture land would often rent for \$20 to \$25 an acre in central Illinois. Tillable land of

comparable productivity would rent for \$100 to \$150 an acre for corn or soybean production.

Thus, the permanent pasture rents for roughly 20 percent of the rent for tillable land of comparable productivity. In such cases, permanent pasture is to be assessed at roughly 20 percent of the value of tillable land of a comparable productivity.

Dick McKain, IFB's director of State and Local Finance - Property Tax, urged county Farm Bureau officials at the meeting to offer to assist assessing officials in implementation of the new assessment law.

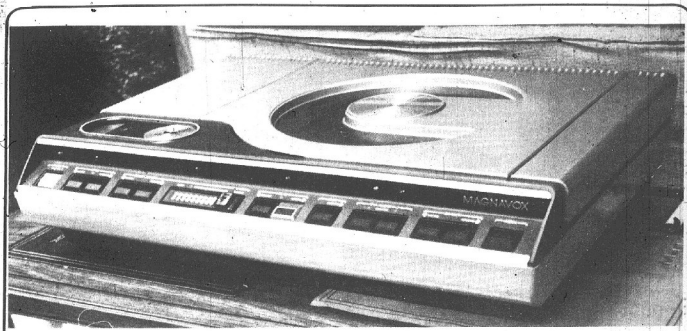

He also urged them to find out from their county treasurer how much property tax was collected and distributed to each taxing district in the county for the past five years. Then, he said, that information can be provided to the county Farm Bureau members.

McKain said the governing boards of the local units of government, including school districts, determine the amount of property taxes to be collected. It is not determined by assessing officials, he stressed.

McKain also urged the county Farm Bureau leaders to encourage members of the General Assembly to work for "a meaningful limitation" on the amount of increase in local property taxes which any unit of local government may receive in any one year.

After talking with Farm Bureau leaders at several meetings, Gardner said, he has detected some problems with administration of the new law. He said some counties still have not acquired all the desired tools to administer it, such as complete soil surveys.

But, Gardner said, the new approach to assessing farmland is much more related to productivity and is "certainly less burdensome" than if the county were to impose assessments of thirty-three and one-third percent of market value on all farmland in the state.

Videodisc—viable alternative?

By PAT FOLEY
of the Press-Record

An alternative to the home video recorder has been developed for general public use and persons in the Quad-City area have been given a chance to see this space-age marvel.

It's called a videodisc player and the unit being marketed first to the public is the Magnavision version, called Magnavision.

The Magnavision player was on display for a week at Bert's Audio and T.V. Showroom, 1910 Delmar Ave., and a demonstration of the device was available.

For those who haven't yet decided to get into home video recorders, this might be "just what you are looking for," store officials say.

Priced competitively with video recorders, the disc players offer quality of the transmitted picture onto the TV screen as good as if not better than what a video recorder can reproduce.

The added cost of expensive two, four and six-hour videotapes have kept many families from taking the plunge into home video recording. Also, video tape, not unlike audio tape, does wear out in time and can stretch and be harmed in other ways.

The Magnavision videodisc, in contrast, is a virtually indestructible plastic-encased metal disc that can be used thousands of times and will never wear out.

Why hasn't the videodisc been marketed before now? One basic difference between the video recorder and videodisc is that reason:

While the video recorder is just that—a recorder, which can both record and playback tapes, the videodisc is a one-way medium—playback only.

At first this may seem to be more than a little difference; but after closer analysis, it might just be the big selling point of the disc system. Blank tapes can run anywhere from \$15 to \$25 apiece, a sizeable outlay for most people. On the other hand, a videodisc will be sold for

around \$6 each or \$12—for two discs—for most movies and programs.

Presently, each disc has two sides with 30 minutes of play time on each. So even if a movie or program would run 2½ or 3 hours, the cost would still be around \$18 and the discs would never wear out.

Some persons not entirely sold on video recorders argue that if they don't have enough time to watch a show when it is first run on TV, they will probably not have time to watch the taped version.

For these people the ease of operation of the Magnavision player for the playback of pre-recorded material might be just the right thing.

This particular player is simple to operate and requires little or no prior knowledge. If you can operate a simple cassette recorder, you can tackle the Magnavision player.

The design is sleek and simple and all of the controls are push-button.

The discs themselves are not unlike a record album played on regular turntables. The difference is that the disc is metal and encoded with information picked up by a laser beam located below the disc when it is put into the player.

This is the opposite of the record turntable—as is the direction of travel, from the inside outward.

The metal disc is covered with a clear plastic which protects the encoded information from scratches, fingerprints, soda spills, etc. The disc used for the demonstration was a perfect example of how much abuse the disc can take and still produce an unbelievably sharp picture nonetheless. It had been used in 35 other stores before coming to Bert's downtown, and heavy use—and abuse—of the disc was apparent.

The disc was covered with scratches, mars and fingerprints, but when put into the player it still produced a picture as good as if not better than a regular TV telecast.

The remarkable disc travels at an astounding—1,800 revolutions per

minute, as compared to the 33 and 1-3 rpm of an audio album.

Controls of the player include both fast forward and reverse; a search mode which is used in conjunction with a user-logged index for quickly locating a particular part of a program; a slow motion mode which has a variable speed control; and the capability of a stop-action or still mode.

The still mode allows the user to watch the program "frame by frame."

All of the above mentioned modes are without any fluttering of the picture and without any inherent interference on the viewing screen. Video tape recorders—players are plagued with jerking images and signal break-up when slow-motion and fast forward modes are used.

Other features are true stereo sound tracks and the proper jacks to hook-up the sound portion of the player through a home audio system for superior sound reproduction.

This stereo sound feature also allows most programs not recorded in stereo to be recorded in two languages, English and another language—Spanish, German, Japanese, etc.—which is easily switched between by pressing just one button.

The demonstration disc showed a portion of a Columbo TV series shot on it and had been recorded in Japanese on the second channel.

Persons of various ethnic backgrounds could purchase discs with their native tongue recorded in addition to English. Also, those learning a second language could make good practical use of this feature for educational purposes.

Several other companies are announcing the arrival of their versions of videodisc players, some less expensive, almost none compatible with the Magnavision or other systems.

Only time and the public will tell which will be the system of the future, and whether the video disc will ever competitively challenge the video tape craze.

Mark Krizan dies at 68

Mark F. "Mike" Krizan, 68, of 321 Fremont, N. Fort Charlotte, Venice, Fla., a retired Granite City Steel employee, died at his home Wednesday night.

He had worked at the local plant for 34 years before he retired, then moved to Florida.

While residing in this area, Mr. Krizan was a member of

St. Elizabeth Roman Catholic Church and was active in Boy Scouts and Explorers.

Survivors include his wife, Mrs. Mary Krizan; one son, James Krizan of Venice, Fla.; and two grandchildren.

Funeral services will be Tuesday morning, April 8, at a Catholic church in Venice, Fla.

Mrs. Dimitroff, 72, dies

Mrs. Catherine (Labancharoff) Dimitroff, 72, of 2641 State St., was stricken at home with an apparent heart attack Thursday and was pronounced dead at the scene at 1:15 p.m. by Randall A. Irwin, Madison County deputy coroner.

She had suffered a heart attack on Feb. 19. Mrs. Dimitroff was born in Smiridich, Macedonia, and came to Madison in 1923.

She made her home with the Chris Louis family. Mrs. Dimitroff was a member of St. Cyril and Method Eastern Orthodox Church, Granite City, and also belonged to the

Macedonian-Bulgarian Ladies Aid Society and the Sisterhood of the church.

Her husband, William Dimitroff Sr., who owned and operated the Granite City Dental Laboratory from 1920 to 1963, died Sept. 23, 1963.

Survivors include two sons, James Dimitroff and William Dimitroff Jr.; a daughter, Mrs. James (Dorothy) Goodrich, all of Granite City; one sister, Mrs. Maria Karandjef, Athens, Greece; and six grandchildren.

Funeral services were held Saturday. Details are given in the obituary column.

Hearing Aid

Mrs. Thelma Woods dies

Mrs. Thelma Helen (Pflanz) Woods, 61, of 517 East Chain of Rocks Road, died at 3 p.m. Thursday at Christian Northeast Hospital, St. Louis. She had been hospitalized for three days.

She was born and had resided in St. Louis until

moving to the Mitchell area 28 years ago.

Mrs. Woods was a member of the Mitchell United Presbyterian Church.

Survivors include her husband, Gaylon Woods; three daughters, Mrs. Patricia Atkinson and Mrs. Norman (Sharon) Owca, both of Granite City, and Mrs. Dennis (Neena) Johnson of Collinsville; one brother, Martin Pflanz of Illinois; and eight grandchildren.

Funeral services were held today. Details are given in the obituary column.

\$530 BURGLARY

A diamond ring containing seven diamonds and valued at \$450, and a ladies wrist watch worth \$80, were stolen from the home of Judy Hartzel, Box 83, Highway 162, it was reported to Madison County sheriff's deputies at 4:15 a.m. Friday.

Burglars broke into the home through a back door.

\$500 SAW STOLEN

A gas-powered abrasive saw valued at \$500 was stolen from a Chevrolet van owned by the Amco Plumbing Co., it was reported at 6:30 a.m. Saturday.

CITY CALLS BIDS ON NEW RESCUE TRUCK

Granite City Council members, acting on a motion by Earl Baker, chairman of the council's fire and water committee, authorized last week a call for bids for a new rescue truck for the fire department. The Illinois Department of Transportation has awarded the city a federal grant for funding 75 percent of the cost. A fully-equipped unit is expected to cost about \$40,000.

Solar energy 'appropriate technologies' awaited

By WILSON CLARK
EDITOR'S NOTE: This is the twelfth in a series of 15 articles exploring "Energy and the Way We Live." In this article, Wilson Clark, advisor on energy and environmental issues to California Governor Edmund G. Brown Jr., discusses solar and other alternative energy sources. This series, written for C.O.U.R.S.E.S. BY NEWSPAPER, a program of University Extension, University of California, San

Diego, was funded by the National Endowment for the Humanities, with supplemental funding from the National Science Foundation.

Copyright (c) 1980 by the Regents of the University of California.

+++
The international oil crisis is worsening, and safety and environmental problems plague the development of such energy sources as nuclear fission and coal. The rapid development of

renewable, efficient energy supplies through harnessing the sun is therefore quickly becoming an important national priority.

Unlike the centralized energy sources of today, the development of clean, more localized energies based on the sun offers the potential of a society free from terrorist threats at nuclear plants, environmental degradation from the exploration and development of the earth's fossil fuels, and the Damocles sword of nuclear power development.

With a major national commitment, we can build toward a new solar age while making the energy facilities and use patterns of today more efficient.

Conservation of energy is important, but we must accelerate the use of renewable energy.

Today, the only major renewable energy source is hydroelectric power, triggered by the sun's effect on the world's water cycles. Hydroelectric dams supply 4 percent of the nation's energy, but finding new sites will limit the potential of this resource.

Looming in the future, however, are other, more direct uses of the sun's energy.

There are two basic ways to utilize solar energy in buildings: through the installation of "active" solar collectors, which trap and store heat, and through the "passive" design of buildings to maximize the use of natural sunlight and other climate-related energy factors.

PASSIVE SOLAR DESIGN. Harnessing the sun's energy through passive designs has been the hallmark of good architecture for centuries.

Greek and Roman buildings faced the sun to gather heat; medieval castles were often built to store heat in great masses of stone.

Tropical structures are proven passive solar techniques for new homes and buildings utilize the heat of thick walls, rocky and storage devices to store solar heat captured by the buildings and their windows for later use.

New structures may be specifically designed to incorporate large south-facing windows, as well as special ventilation techniques to cool structures in summer.

One award-winning builder, Jess Savell, has used five-inch walls of concrete and foam insulation to provide excellent cooling qualities in hot climates.

His insulating cocoon has reduced energy requirements by 60 percent in test homes. Such super-insulation will undoubtedly prove popular as consumers recognize substantial energy savings at low cost.

ACTIVE COLLECTORS. The active approach to solar energy, which uses special collectors to trap heat and storage devices to save it for later use, is also rapidly growing.

Early in this century, a substantial market for solar collectors developed in California and Florida, but the advent cheap fossil fuels and electricity curtailed the solar demand. As late as 1961, however, there were 50,000 solar water heaters in Miami.

ONE WEEK IN JAIL. Associate Judge John W. Day has ordered Frederick McDonough Jr., 28, South Roxana, to serve one year of probation, one week in the Madison County Jail and to pay a fine of \$250 after McDonough pleaded guilty to battery. The charge was reduced from a felony count of aggravated battery from a Jan. 22 incident in which he allegedly struck Darrell Jones, St. Charles, Mo., in the head with a pool cue during a disturbance at B.J.'s Fourth Street Tavern in the 1400 block of Fourth Street in Madison.

FIRE DAMAGES TRUCK. Brakes overheated and started a fire which caused an estimated \$350 damage to a Friele Farm truck on Rock Road and Route 3 at 12:45 p.m. Wednesday. Granite City firemen extinguished the flames.

ALUMINUM SIDING. An employee of the nearby Church's Fried Chicken brought a fire extinguisher to the station and put out the fire before Granite City firemen arrived.

The owner, Phil Craddock, said the station is closed and out of business.

INDIVIDUALS THEM INCLUDED. 265 about insects, 197 about trees, 120 about turfgass, and 47 about garden flowers. I haven't counted the items about shrubs and vines, pruning, landscaping, pests, ponds and pools, pesticides, weeds, diseases, gardening perennials, bulbs, house plants, or miscellaneous.

My special interests in horticulture are quality turf and trees of individual character. Quality turf involves thousands of plants that look exactly the same. A tree of individual quality is sort of a "one of a kind."

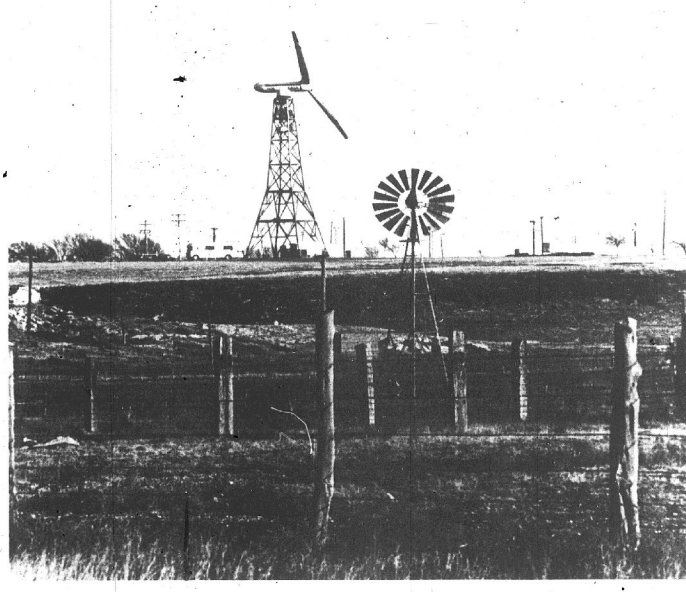

I get a good deal of self-satisfaction in producing a good turf or a handsome tree, and I've enjoyed advising you on how to be successful with your turf and trees.

This is my last release. Thanks for your message regarding your success with trees, shrubs, plants and landscaping.

ALUMINUM SIDING
50 LUCKY HOMES

Belleville, Ill. Why pay ridiculous prices for siding? Salesman's commissions and middleman profits? Deal direct with manufacturer

and save. Put a new face on your old house with aluminum siding, \$399 for any size home, labor and materials. 234-0659 24 hrs. and Sundays.

WIND POWER. Modern wind turbine in Clayton, New Mexico, contrasts with traditional windmill. Wind electricity is the least expensive form of solar-derived energy today.

built with thatch and airy breezeways to deflect solar heat; barns in northerly climates are built with sloping, south-facing roofs to catch solar heat and deflect winter snows.

Today, the lessons of passive solar design—neglected since the introduction of cheap energy—home air-conditioners and compact central heating systems—are once again being learned.

Proven passive solar techniques for new homes and buildings utilize the heat of thick walls, rocky and storage devices to store solar heat captured by the buildings and their windows for later use.

New structures may be specifically designed to incorporate large south-facing windows, as well as special ventilation techniques to cool structures in summer.

Today, solar water heating is catching on again, and nationally, the industry may reach \$20 billion by the end of the 1980s.

Solar space heating and air-conditioning technologies are being developed and marketed for homes, commercial buildings, and industry.

The most familiar type of solar collector consists of a dark metal surface covered with copper tubes for transferring a liquid, enclosed in a glass-covered box.

Until recently, this was the only commercially available solar technology.

Now, more than 100 U.S. manufacturers produce a dazzling variety of designs, such as flat-plate collectors covered with plastic glazing; collectors that have tracking devices to "follow" the sun; and evacuated tube collectors that trap heat in glass vacuum tubes.

For many household uses, simple flat-plate collectors can provide hot water and space heating. But for more sophisticated applications—such as providing heat over 200 degrees F. for the operation of refrigeration or industrial heating equipment—concentrating and tracking collectors are preferred.

Today's solar hot water heaters cost from \$1,500 to \$4,000 for household installations, and upwards of \$10,000 for more sophisticated systems.

As technologies improve in the 1980s, concentrating and discounting inflation—are expected to decline.

PHOTOVOLTAICS. A currently expensive, yet very promising, solar technology is utilized on spacecraft. It involves photovoltaics, whereby tiny cells (similar to the silicon

semiconductor chips used in pocket calculators) convert 10 to 20 percent of the sunlight striking their surface into direct-current electricity.

The most common type of photovoltaic cell, the silicon cell, now costs \$8 to \$10 per watt of generating capacity, when arranged in special power-generating arrays.

Yet a reduction in cost to \$1 or \$2 per "peak" watt is expected within the next few years, as modern manufacturing techniques and new technologies for producing the silicon raw material are introduced.

Photovoltaics today are used mostly for remote power applications, such as Coast Guard navigational buoys.

However, some producers report that village-sized power systems around the world that now use diesel generators are finding photovoltaic systems an economic replacement.

Other large-scale solar technologies include "power towers."

Special reflector mirrors, called heliostats, concentrate sunlight a thousand-fold to generate steam in a tower-mounted boiler, which in turn is connected to a conventional electric turbine generator.

The "solar pond," another large-scale technology, makes use of special brine ponds, which trap heat at high temperatures that can be used for electricity conversion.

Developed in Israel, it is now being considered for California's man-made Salton Sea, south of Los Angeles.

The Salton Sea project would be the world's largest single solar project, producing over 600,000 kilowatts of economic, pollution-free solar elec-

tricity, enough to supply a half-million people.

WIND POWER. Another solar-derived technology that promises widespread application as well as low cost is wind power.

Wind electricity is the least expensive form of solar energy today.

A recent study by SRI International, a technology consulting firm, indicates that wind power could supply 80,000 megawatts of electricity, equivalent to 80 large nuclear or coal plants, by the turn of the century.

To date, several large wind generators have been built by the federal government. And at least one electric utility, the Southern California Edison Co., has initiated a private test program.

Until recently, the government's efforts have focused on gargantuan machines—each having rotor blades up to 300 feet in spread. Recent research shows, however, that smaller machines (1,000 kilowatt, 100 to 200 foot blades) linked together in favorable areas may be the best, most economic answer to the energy problem.

Since wind generators are relatively simple, they can be manufactured in large quantities at low cost and installed at favorable sites.

The World Meteorological

Organization estimates that 20 million megawatts of wind electricity can be harnessed on a global basis.

Solar energy is also stored in biomass, or plant matter, that can be converted into liquid and gaseous fuels to replace petroleum and natural gas.

The goal is tantalizing—the energy stored in biomass is estimated to be 10 to 40 times the current annual human use of fossil fuels.

The conservation economy and the solar transition are not radical, impossible steps for our civilization.

The sun's energy efficiently and increasing the use of solar energy will have dramatic, positive effects on the U.S. economy.

Decentralized, community approaches to solving energy problems encourage the development of new jobs, and solar energy will reduce the need for inflationary imports of non-renewable fuels.

What is needed is a major national commitment to this goal. The full cooperation of industry, labor unions, citizens and government can make the dream of an energy-efficient solar age into a reality.

Spring arts conference

Teachers, administrators and others interested in art education will have an opportunity April 15 to study exemplary art programs from area schools at Spring Celebration II: Excellence in the Arts. The event will begin in the STUC University Center at 8 a.m.

Programs that schools have used to teach the arts, and presentations in music, dance, theater and visual media and literary arts will be featured.

The conference will include individual sessions that will allow participants to study the scope and depth of model activities currently being used.

Some of the topics that will be covered in the sessions are: The Arts in Gifted Education; When Dollars Are Short for the Arts — Get Community Support; Learning to Read from the Arts; The Magic of Folklore and Folksong; Potpourri of Puppetry; Open-Ended Approach to the Arts; and Chagall and Stravinsky Meet in the Media Center.

Gene Wenner, president of the American Music Conference, will be the keynote speaker for the day. Previously a teacher in Philadelphia public schools and a consultant to symphony orchestras, he will discuss "The Arts Are Basic."

Sylvia Wallach, an artist, teacher and composer, will give a presentation during the day. She is a member of the Chicago Symphony Chorus and author of the book, "Music Is Life, Love Is the Message."

The Katherine Dunham Dancers, who received the 1979 Governor's Award for the Arts in Illinois, will be one of the dance groups performing at the conference. The group from East St. Louis is nationally known and has performed at Carnegie Hall and the White House. Other dance performances will be given by the Althoff German Folk Dancers, Mid American Dance Company and Cahokia Mounds Dancers.

Among those giving musical performances will be the STUC Suzuki Performing Group from the String development Program, Schaffer Junior High School Chorus and O'Fallon High School Madrigal Singers.

FAMILIES RETURN

FROM TEXAS VISIT
Mr. and Mrs. Robert Myers and Mr. and Mrs. Brooks Holder and family have returned from a few days' visit in Waco, Bedford and Grapevine, Texas.

They attended the All-University Sing produced by the Baylor Student Union of Baylor University, Waco. Gregory Holder was honored by having a solo part with the Sigma Chi fraternity's "Sing In the City." They visited the A. M. Bradfords, formerly from here, and the Richard Biggars.

SMITH BECOMES AIR FORCE LIEUTENANT
Stephen R. Smith, son of Mr. and Mrs. Beagle R. Smith of Rural Route Two, Granite City, has been commissioned a second lieutenant in the Air Force upon graduation from officer training school at Lackland Air Force Base, San Antonio, Texas.

Selected through competitive examination for attendance at the school, he now goes to Fort Rucker, Ala., for training as a helicopter pilot.

The lieutenant, a 1973 graduate of Granite City High School, received a bachelor degree in 1978 from Southern Illinois University at Edwardsville.

IMPERIAL SWING TO BE TAUGHT HERE

A four-week Imperial Swing class will begin at the Tri-City Area YMCA April 13. The class will meet on Sundays only from 6:30 to 8 p.m. Combining jitterbug, swing and disco, it will be taught by Denny Puryear and Lynn Svezia; their instruction will consist of basic steps, turns and walks.

Interested persons need not have a partner to register," said Puryear. The cost is \$12 for YMCA members and \$16 for non-members; to register, the number is 876-7200.

MADISON MAN HURT

Harold Wright, 20, of 26 Garesche Homes, Madison, was injured in an auto accident last week and was admitted to St. Elizabeth Medical Center with injuries to his head and left hip.

Alternate Financing Meeting
SATURDAY MORNING APRIL 12th

Alexander's Restaurant

5240 NAMEOKI ROAD

EVERYONE INVITED

9:00 - 9:30 BUYING V.A. — Veterans can purchase a new home with no money down at lower interest rates.

9:30 - 10:00 BUYING FHA — Available to anyone — small down payments and lower interest rates.

10:00 - 10:30 BUYING FHA with Graduated Payment Plan. Allows buyers to start with lower monthly payments which increase annually over a period of years.

10:30 - 10:45 BREAK — Refreshments.

10:45 - 11:45 BUYING CONVENTIONAL — Alternate ways of handling conventional loans.

11:15 - 11:45 BUYING CONTRACT FOR DEED — Creates a situation where seller handles financing — allows flexibility in interest rates and down payment.

11:45 - 12:15 BUYING LOAN ASSUMPTION — Buyer takes over existing loan which is most usually at a much lower interest rate.

YOU CAN STILL BUY THE HOME OF YOUR CHOICE ...

WEAPON CHARGE
 James E. Zoller, 36,
 Murray, Tenn., was arrested
 by Madison County sheriff's
 deputies at 8:46 p.m.
 Thursday on a charge of
 unlawful use of a weapon.
 Deputies said they were
 called to the parking lot of
 Grandpa's Store, 8011
 Collinsville Road, in another
 matter, and while in-
 vestigating went to Zoller's
 car to question him. Officers
 said a fully-loaded .38 caliber
 revolver was lying on the car
 seat.

\$1 DAILY FINE AT
UNIVERSITY LIBRARY
 A \$1-per-day assessment
 at Lovejoy Library on non-
 returned recalled library
 items and special loans, with
 a maximum assessment of
 \$10 per item, is now in effect
 at SIUE.

John C. Abbott, library
 director, said he is especially
 concerned when items
 specifically requested for
 use by another person or to
 be placed on reading
 reserves are not returned.
 "While those who do not
 cooperate are only a small
 minority, their failure to do
 so can seriously damage
 course work or research," he
 said. "And the failure un-
 dermines the sense of
 community vital to all
 university endeavors."

Plan before you plant!

Before you plant a new tree around your home consider these points:

- Will the roots damage the foundation of your home, or damage the house sewer tile?
- Will branches brush cars using the driveway, or obstruct a driver's vision?
- As the tree grows will branches drag across the roof and drop leaves in the gutter, or come dangerously close to your house?
- Is the tree you have selected a clean, long-lived tree with strong branching? (Fast-growing trees are usually weak-wooded and short-lived trees that scatter dead limbs on your yard.)
- Will the tree provide shade where you want it? (Too much shade will weaken or kill out grass.)
- Will it soon grow into electric power wires and endanger service to yourself and your neighbors? (Over 90% of power failures occur when strong winds or sleet storms send branches and trees crashing through power lines.)
- Will you damage your underground gas or electric service line if you dig a hole for a new tree bush? Call your Illinois Power office for assistance. We'll be glad to let you know where our underground lines are located near your home.

Plan before you plant—and your new trees will give you many years of enjoyment.

See your nurseryman.

IP IT'S OUR BUSINESS TO SERVE YOU BETTER
ILLINOIS POWER

ORDINANCE NO. 96 AN ORDINANCE PER- MITTING THE STANDING ON A HIGHWAY FOR THE PURPOSE OF SOLICITING CONTRIBUTIONS WITHIN THE CITY OF MADISON, ILLINOIS

BE IT ORDAINED by the City Council of the City of Madison, Illinois, as follows:

SECTION 1. No person shall stand on a highway for the purpose of soliciting contributions from the occupants of any vehicle except as provided hereinafter.

SECTION 2. A soliciting agency shall be given authority upon proper request to the Corporate Authorities of the City of Madison to have its agents stand on a highway within the corporate limits of the City for the purpose of soliciting contributions from the occupants of any vehicle. However, any and all such soliciting shall be allowed only at intersections where all traffic is required to come to a full stop.

SECTION 3. The soliciting agency shall be:

a) registered with the Attorney General of the State of Illinois as a charitable organization as provided by "An Act to regulate solicitation and collection of funds for charitable purposes, providing for violations thereof, and making an appropriation therefor", approved July 26, 1963, as amended;

b) engaged in a Statewide fund raising activity; and

c) liable for any injury to any person or property during the solicitation which is causally related to an act of negligence of the soliciting agent.

SECTION 4. Any person engaged in the act of solicitation shall be 16 years of age or more and shall be wearing a high visibility vest.

SECTION 5. The soliciting agency shall provide with its request documentation to show compliance with the requirements of Section 3 (a) and (b) above. Further, the soliciting agency shall provide with its request:

a) a certificate of insurance indicating coverage in reasonable amounts for the soliciting agency and the City of Madison as a co-insured;

b) a list of agents and their addresses who will be soliciting in their behalf;

c) the intersection(s) where solicitation is to be done and the hours of said solicitation;

d) such other information the Corporate Authorities shall require from time to time to insure compliance with this ordinance and appropriate state statutes.

SECTION 6. The soliciting agency shall be given notice and/or soliciting agency violating this Ordinance or any part hereof shall be subjected to the payment of a fine of not less than Twenty-Five Dollars (\$25.00) or more than Five Hundred Dollars (\$500.00) for each offense.

SECTION 7. Any ordinance or parts of ordinances in conflict herewith are hereby repealed.

SECTION 8. This ordinance shall be in full force and effect ten (10) days after its passage, approval by the Mayor, and legal publication.

SECTION 9. If any provision of this Ordinance hereby adopted or the application thereof to any person or circumstance is held to be unconstitutional or invalid for any reason by any court of competent jurisdiction, the remainder of this Ordinance and the application of such provision to other persons and circumstances, shall not hereby be rendered invalid or inoperative by such holding.

SECTION 10. This ordinance shall remain in full force and effect.

PASSED BY THE CITY COUNCIL OF THE CITY OF MADISON, ILLINOIS, THIS _____ DAY OF _____, A.D. 1980.

APPROVED BY THE Mayor of the City of Madison, Illinois, this _____ day of _____, A.D. 1980.

Mike Sasyk
MAYOR

ATTEST:
CITY CLERK
No. 68 34 47

IN THE CIRCUIT COURT THIRD JUDICIAL CIRCUIT MADISON COUNTY, ILLINOIS

IN RE: In the Matter of the Petition of JASEN KYLE HELEN, a minor.

No. 80-P-311
ADOPTION NOTICE
TO: LARNELL GREENWOOD AND ALL WHOM IT MAY CONCERN:

TAKE NOTICE that a Petition was filed in the Circuit Court of Madison County, Illinois, for the adoption of a child named KASEN KYLE HELEN, a male minor.

Now, therefore, unless you, Larnell Greenwood, and All Whom It May Concern, file your Answer to the Petition in said suit or otherwise file your appearance herein in said Circuit Court of Madison County, Illinois, in the City of Edwardsville, Illinois, on or before the 16th day of May, 1980, a default may be entered against you at any time after that day, and a judgment entered in accordance with the prayer of said Petition.
